NCOSE Vision

The National Center on Sexual Exploitation (NCOSE) exists because people should be free to live and love without sexual abuse and exploitation. We believe in a world free from sexual abuse and exploitation. We believe every human being deserves the opportunity to live life to its fullest potential; to pursue dreams and ambitions; express creativity and hone talents; seek beauty, truth, and faith; experience hope, joy, and love with family and friends—to thrive. Such a vision requires not only individuals and institutions that work towards its realization but also a culture that embraces its responsibility to preserve and protect human flourishing. We aspire to create that culture.

NCOSE Mission

NCOSE is dedicated to the eradication of sexual abuse and exploitation in all of their forms.

NCOSE Approach

NCOSE works to end sexual abuse and exploitation entirely—rather than manage their impact—via a strong multidisciplinary team. Accordingly, NCOSE has brought together many of the world's top experts on these issues into one team to holistically address systems of sexual abuse and exploitation from all angles. As a result of our multidisciplinary approach—which includes unifying the movement, research, training, litigation, corporate and legislative advocacy—NCOSE is highly efficient at implementing effective solutions that maximize its resources.

NCOSE Work

NCOSE is the leading 501c(3) non-profit organization exposing the links between all forms of sexual abuse and exploitation. Taking down the multi-billion-dollar sexual exploitation industry is no easy feat. NCOSE has built the infrastructure that is equipped to stand toe-to-toe against the world's pornographers, pimps/sex traffickers, sex buyers, and exploitation profiteers. With an expansive grassroots network, Research Institute, embedded litigation law firm, training team, and global coalition—paired with our cutting-edge public policy and corporate advocacy tactics—NCOSE is realizing major progress every day. Victories that used to take years are now happening within weeks!

NCOSE Distinctives

With over six decades of experience to its credit, NCOSE brings a unique historical perspective to combating modern manifestations of sexual abuse and exploitation. Our rich history of experience provides us with longitudinal knowledge that others may lack.

NCOSE is steadfastly committed to addressing the web of sexual abuse and exploitation in its entirety. Forms of sexual harm intersect, overlap, reinforce, and fuel each other. This reality creates pernicious sectors of sexual exploitation and injustice which destroy lives and devour hope. We leverage this understanding to develop projects which strike deep at the roots of the systems which support and sustain sexual abuse and exploitation.

NATIONAL CENTER ON SEXUAL EXPLOITATION

How NCOSE Works

Because forms of sexual harms overlap, reinforce, and fuel one another, our strategy is designed to combat sexual abuse and exploitation with a multi-faceted and interdisciplinary approach

NCOSE's Corporate Advocacy efforts center around harnessing the power of advocates and activists to see the world's largest corporations reject profits from exploitation and to stop partnering with the sex industry.

NCOSE's Research Institute conducts analysis, develops resources, and designs and collaborates in empirical, applied research projects to build solutions to eradicate the web of sexual abuse and exploitation.

At NCOSE's Law Center, we believe law is the greatest tool to defend human dignity against sex trafficking, pornography, child sexual abuse, and more. It sets social norms, punishes exploiters, and gives justice to survivors.

NCOSE's Public Policy work aims to defend dignity and combat sexploitation through political advocacy at the national and state levels with bipartisan support of all legislative solutions.

Top Issues

Sexual abuse and exploitation of all kinds of pernicious, interconnected problems that harm people from all walks of life – especially the vulnerable and marginalized in our societies. These connections must be exposed and addressed, and that work begins with these issues.

One in ten children will experience child sexual abuse before they reach 18 years of age.

IBSA includes a wide range of harmful experiences involving the weaponization of sexually explicit or sexualized images or videos.

Pornography use, even among children, is more prevalent and normalized than at any time in human history.

Coercion, force, fraud, and deeply rooted social injustices are necessary to make prostitution possible.

The failure to combat sex buying guarantees not only the survival of sex trafficking but also the creation of future generations of victims.

Sex trafficking involves the exploitation of people in the commercial sex industry (i.e., prostitution marketplaces) where victims are expected to provide commercial sex acts on demand.
