Hilton Worldwide Headquarters  
c/o Christopher J. Nassetta  
7930 Jones Branch Drive  
McLean, VA 22102

Dear Mr. Nassetta:

We are writing you to express concern regarding your distribution of hardcore, possibly obscene pornography in your hotels in America and ask you to stop distributing such material. We ask you to do this as a matter of conscience, to avoid sexual exploitation as a means of profit. We also ask you to consider that you may be violating U.S. law, 18 U.S. Code Section 1468, which prohibits distribution of obscene matter by means of cable television or subscription services on television.

Shortly, the National Center on Sexual Exploitation (NCSE) will publicly announce the annual "Dirty Dozen List," which contains the top promoters of sexual exploitation and pornography in America. After careful consideration, we have decided to keep Hilton on this list. We note that consumers now have many choices for porn-free hotels, including Omni, Drury, and Marriott. We will encourage travelers to stay at those and other chains that do not offer pornography.

All children, women, and men have a natural human dignity and thus a right to live in a decent society. Pornography and all sexual exploitation are degrading, dehumanizing, exploitive, and a violation of this right. NCSE and MIM exist to make society aware of the many harms of pornography and other forms of sexual exploitation; to equip individuals and families to overcome or protect against those harms, and to advocate that all laws defending the right to be free from pornography are vigorously enforced.

Not only does pornography exploit, degrade and dehumanize the people in the films and photos, but it exploits, degrades and dehumanizes the people exposed to it, teaching them to view others as merely objects for selfish pleasure.

Our nation is now suffering an untreated pandemic of harm from the widespread distribution of pornography and Hilton bears great responsibility for that harm.

Adults, and even children, are developing life-long addictions to pornography. Sexual violence against women, including rape, and sexual harassment of women are directly tied to the consumption of pornography. Pornography is a destructive force in marriage and research even demonstrates that it kills a desire to marry. There is increased demand for child pornography among many adult-porn users who find that they are no longer excited by adult images, and pornography is a contributing factor in the increased demand for sex-trafficked women and children in the U.S.

A wealth of peer-reviewed research demonstrates the many other harms of pornography. We maintain a database of such studies at [PornHarmsResearch.com](http://PornHarmsResearch.com).

We also have many testimonials from people formerly caught up in the pornography industry, of being exploited, given illicit drugs, coerced to perform objectionable acts, and therefore sexually trafficked in violation of the U.S. Trafficking Victims Protection Act.

It may be easy to detach from the issue and consider pornography as a mere profitable part of modern life—but only by avoiding common sense. We at NCSE and MIM have dedicated countless hours to researching pornography and promoting awareness to its many devastating harms and thus we urge you to stop using pornography and sexual exploitation to sell products.

We would welcome the opportunity to meet with your representatives to discuss this matter at your earliest convenience.

Sincerely,

Patrick A. Trueman  
President & CEO

Dawn Hawkins  
Executive Director
