

Sexual Grooming of Minors

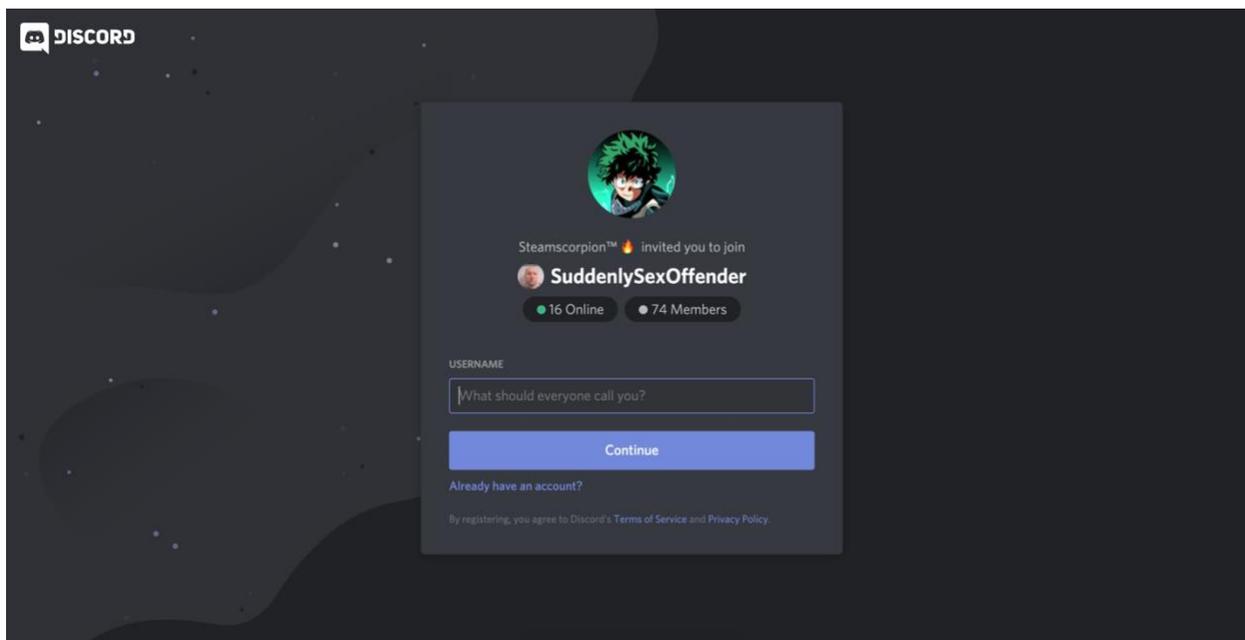

Discord has facilitated a space for sexual grooming by abusers or sex traffickers, leaving it anything but a safe and friendly place for minors. These abusers or traffickers know minors are on Discord, and utilize the platform to engage with minor users through mutual servers and direct messaging.

Here are just a few examples of children being groomed and abused through Discord in the news:

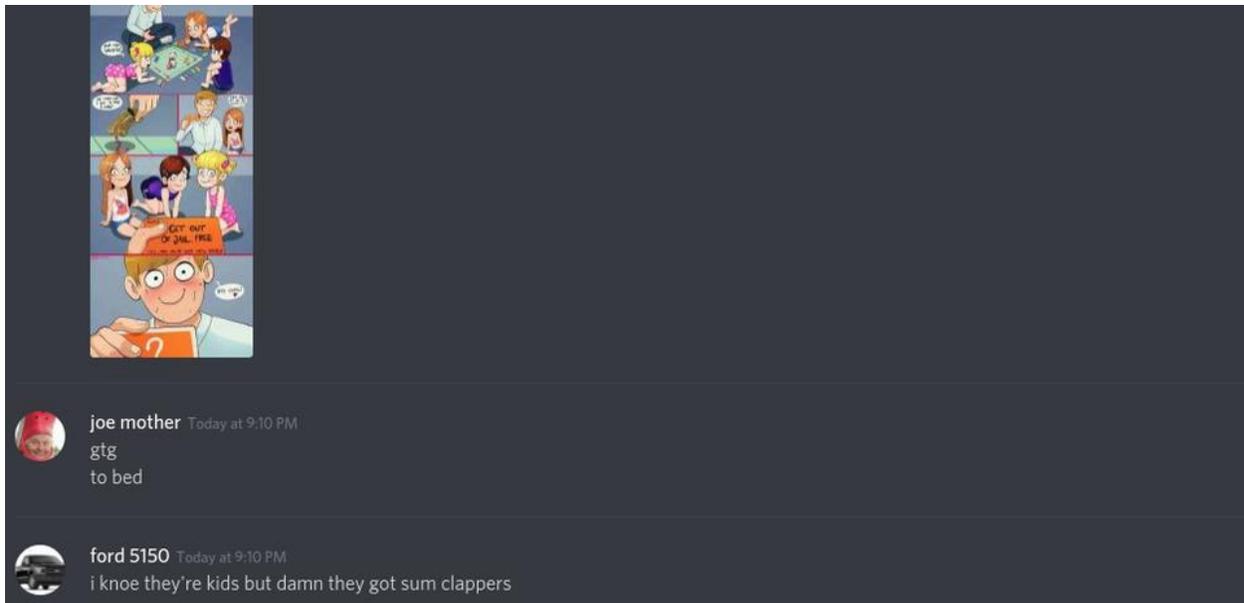

- [A 12 year old girl](#) was groomed for over two months and manipulated into leaving her California home in the middle of the night by a 40 year old predator.
- Two teenage boys were [found in a sex trafficking ring](#) where the traffickers used Discord to contact the victims.
- [A 22 year old man was arrested](#) when a 12 year old girl he had been talking to on Discord disappeared with him in a car.
- Several predators [groomed a 12 year old boy](#) by sending him explicit messages and even calling him over a period of six weeks, before his mother found out and deleted Discord.

Discord's platform creates infinite ways for adults to contact children.

In online communities like Reddit, Discord's problem with adult predators is well-known enough to elicit regular citizens into attempting to catch the predators themselves, commonly referred to as “pedo hunting”.

Can we report a discord Pedo without getting family of victim involved?

Criminal

I am currently in a relationship with my girlfriend and I have found she was in a relationship with a pedophile on discord. At the time she liked the idea but now she regrets it and hates it. She sent nudes to him because he kept asking and she wanted to make him happy even though she didn't really want to send any. She did this because she loved him at the time. Now she's with me and she has a better perspective as on what happened and regrets it. (The pedo is 19 and my gf is 13 and I am 14). Given his age he has the capacity to know that what he was doing is not legal. He could also be doing this to other underage girls.

We would both like to report him however my girlfriend doesn't really want to get her parents involved or anyone else for that matter.

This guy lives in a different country but still in the EU and I think the chat logs and some information are enough evidence to report him.

Is there a way we could do it without getting anyone else involved?

We would have evidence she sent nudes through the chat log however she deleted them right after so I have no idea if that counts. The pedo however sent back nudes and has kept them there.

Thank you for any replies.

TL;DR: Underage girlfriend exchanged nudes on discord and was in an online relationship with a 19 year old in a different country. Can we report him without girlfriends family getting involved?

Edit: We are in the UK

I need help reporting a discord pedo

Question

So I tried to go undercover on some lol hentai discord and I haven't reported it yet cause I want to make sure to report one of the mods properly. He is a pedophile and is with some 12yo girl. But I don't have his ip, location or anything. I just know he lives in California. Once sent one pic of the girl and him, but girls head was at height of his chest and his head wasn't in pic. the background was just gray wall. I was wondering if there is any way I could report him to some authorities. He often bragged about patting, stroking, rubbing her and also about touching her in appropriately. I really wanted to help the girl and get him punished for what he did.

Discord Pedo Targeting Sister

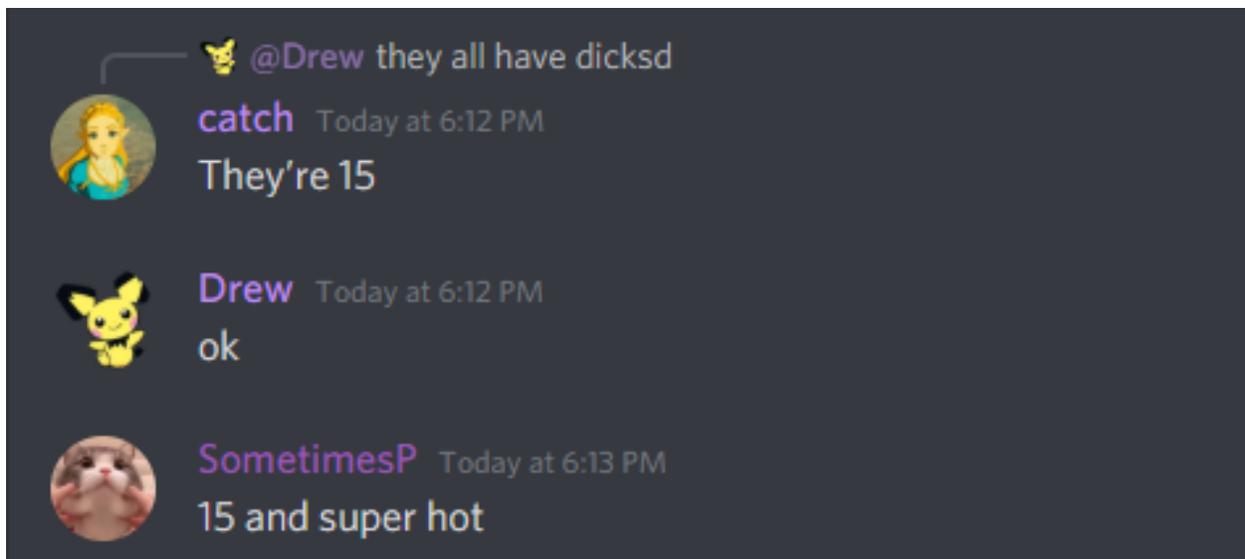

Found out that my sister is being lured by a pedo in discord. There has been transfer of dick pics to her. I do not know how deep this goes but I do know that the stuff already done is arrestable. What do I do? I have a few others who know and are working with me on this. What should I do?

Discord is clearly not doing enough to monitor and actively catch grooming and predator targeting using their current moderation and filtering strategies.
