

Middle Search Plus (Middle School) on EBSCO 2018 and prior

EBSCO has designed a Middle School database, called Middle Search Plus, and categorically loaded it with porn links, as well as advice to engage in risky sexual behaviors. They have falsely marketed the product as "designed for middle school libraries" leading subscribers to believe the content is age-appropriate.

Here is a screenshot from the EBSCO website advertising their product [Middle Search Plus](#):

Title: HOW TO BE A BETTER BOTTOM. By: GOLDSTEIN, DR. EVAN, Advocate, 00018996, Apr2017, Issue 1090

Database: Points of View Reference Center

HOW TO BE A BETTER BOTTOM

Listen American Accent

Section: SEX & HEALTH BOOTY BASICS

Shame-free tips on increasing your sexual health and pleasure

While this is advice for those who identify as "bottoms" anyone who has anal sex should have an understanding of the process involved in successful bottoming. It will help you be a better "top" and positively affect overall sexual experiences.

The act of bottoming is a true art, and whether it's your first attempt or you've been experimenting with it for quite some time, analyzing your readiness and the proper techniques not only allow you to reach heightened sexual pleasure, but also enable safe and enduring practices.

If you've never tried bottoming, but you're curious, let's just address straight away that it won't always just happen right then and there. Successful and pleasurable bottoming takes time and practice through dilation exercises, training of your self-awareness, and control of the pelvic floor.

The good news? Bottoming shouldn't hurt. Of course, it may be uncomfortable at first and you might initially question how there could ever be pleasure in it -- something that happens with vaginal sex the first time as well-but like anything it takes practice, patience, and following a few simple guidelines to enhance this sexual practice. I often tell patients that great bottoms have been doing it for quite some time, with many first experiencing it in their youth. Unfortunately, no one showed us the right way to bottom in our high school sexual education class. Still, it's never too late to learn, and we all enjoy new and positive sexual experiences. Here's my 101 guide to bottoming:

BEGIN WITH DILATION
Get yourself an anal trainer kit, and start training for dilation two to three times a week (for as little as five minutes each time). Use a water-based lubricant and start with the smallest plug. Insert just to the point of pressure. Hold it there for a few seconds, then try to engage the muscles. Allow yourself to relax before removing the plug, then re-lubricate and re-insert to the point of pressure. Repeating this process will prove successful over time, so don't get discouraged if the first time you only get a small portion of the tip in. Repeat the process three to five times. The key is to remember there are three sets of muscles that need to relax for a successful entry. Think of it as a tunnel, and the entire tunnel needs to be a well-lubed cylinder. We don't advise inserting the entire length of the plug and leaving it in on the first try, because removal may be difficult, which could cause tearing. If after four to five sessions you can insert that size without any issues, you're ready to graduate to the next size. Don't forget to enjoy it if you become stimulated during the process, go for it! Not only is it a pleasurable side effect to your dilation training, but you can start to channel your orgasm anally and begin to gain control overtime.

READY FOR THE REAL THING When you've successfully mastered a medium size plug, you're ready to graduate to the real thing. Congratulations! It's always best to start off with you in total control and a partner you trust to be patient in letting you decide the level you're comfortable with. Some people use dilators first, either with or without a sexual partner, to "warm up" and remind themselves of the practiced techniques. Once the engines have been started, the bottom needs to sit on the tip of the penis, allowing control of entry. Use plenty of lubricant and remember the different sets of muscles that need to be relaxed to allow access. Start off using the same technique of inserting until you feel pressure, hold it there, pull out, re-lubricate and repeat. The three to five-time rule applies here as well. Being on top of the penis really allows for you to determine your level of comfort. If pain occurs, you can stop, call it a day, and try again another time. It's not worth causing pain or a potential injury.

GRADUATING TO NEW POSITIONS Once you have fully received the penis, the last hurdle is to add new positions into the mix, like doggy-style. Now, be sure to take this easy to begin with -- it's an intense position and tops can get a little eager. Make sure you have mastered receiving to minimize any injury and maximize pleasure. Start with you reclining on top and gaining control of your muscles before moving around to new positions.

INJURY HAPPENS TO THE BEST OF US Proper techniques are obviously a must, but even brand new cars can break down. The most common issue related to anal sex trauma are tears, also known as anal fissures. If this happens, take a break but don't get

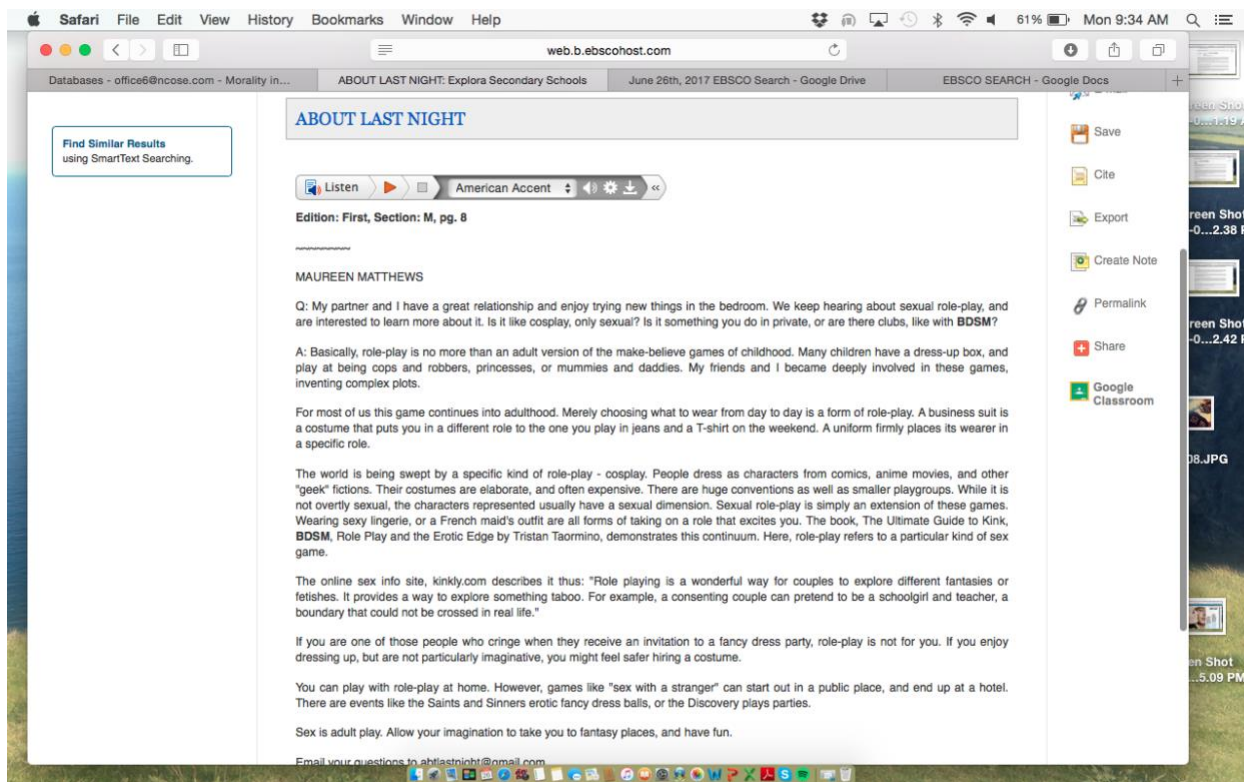

This article for elementary school students gives step-by-step instructions on the excruciating process of preparing one's body for anal sex. It explains the use of butt-plugs and encourages readers to not take a break from engaging in anal sex, lest they have to go through the painful process again.[/caption]

Instructions for how to have better sex from giving oral sex to BDSM. [/caption]

February 2017 - Examples of Material Available To Middle School Users via EBSCO Product Middle Search Plus:

When looking up "prostitution" search term in Middle Search Plus (accessed in CO and CA), dozens of articles advocating and glamorizing prostitution-type activity showed up. The one pictured below has the following abstract:

The article discusses the phenomenon of sugar dating, in which an older participant provides financial support to a young participant in return for companionship and/or sex. Topics include a discussion of whether sugar dating should be considered prostitution or a relationship much like traditional marriage for money; and the documentary "Daddies Date Babies" by Parinda Wanitwat about five female sugar babies and their sugar daddies.

When going through the EBSCO “Middle Search Plus” catalog and the Explora product and then typing in “sex education,” we located the article below called “Watch and Learn” which advises middle schoolers to watch pornography to learn about sex and even gives them the links to BDSM pornography websites do it. This same content was accessed through middle schools in CO and CA.

Screenshots from article "Watch and Learn," which not only encourages BDSM activity, but also contains live links to porn websites.

Both Sides of the Blowjob Equation

Oral sex is a strange part of the sexual landscape; it's both the punchline for jokes and the holy grail of intimacy. It can be a great way to have a quickie, a part of foreplay before other sex, or a long and sensual end unto itself. If there's one thing you can get from [...]
