Cover Page: National Center on Sexual Exploitation's Policy on Sharing Proof

WARNING: *The material in this document may contain graphic text, blurred images, and survivor quotes that may trigger the viewer.*

Why do we post proof in the first place?

NCOSE researchers have collected this proof as evidence of the material that is made, contained, and/or distributed by the corporations and institutions NCOSE is confronting.

Proof is shared with corporate executives, shareholders, and/or board members, as well as with policymakers, law enforcement, journalists, and the general public to **give witness to the sexual exploitation and abuse that is often rampant, yet sometimes hidden, on these platforms.**

Why do you blur out images, including faces, if they're publicly available?

While we believe it is important to provide ample evidence of wrong-doing to support our claims and inspire change, **we also strongly believe that no one – neither adult, nor child – should be exposed to the type of material our researchers collect:** either for their own well-being, or out of respect for those being exploited. It is for this reason we pixelate/blur/block not only nudity or sexually graphic content, but also the faces of those being exploited.

We also want to limit access to this material (unfortunately, a luxury not afforded to children and adults using many of the platforms and products made by these companies). Therefore, we add several layers before someone can access the proof, and also don't include all the proof that we have obtained. If someone feels they need to see more evidence to understand the extent of the problem or the type of exploitation that is happening, they may request it of NCOSE by writing to public@ncose.com.

Did you receive people's permission to post?

Any personal testimony shared to NCOSE directly is posted only with the affected parties approval.

For material that is publicly available, we do not seek permission to post. However, we redact names and usernames of survivors from articles, social media, etc. even when publicly available. To read more about our commitment to ethical engagement with survivors, please go [here](#). We do not redact names or usernames of exploiters who have posted publicly.

Disclaimer: while we do collect information on those who request access to more proofs, that information will only be used for our own, internal analysis. It will not be distributed, shared, or posted publicly or with outside parties.

Many subreddits and posts are dedicated to posting stolen sexually explicit content from other platforms and sharing on Reddit without the consent of the individuals in the material. This continues despite Reddit's policy against non-consensual images.

Reddit Hosts Girls Do Porn Videos and Doxing Despite Highly Documented Abuse (Vice: Dec 8, 2020)

“After a civil court judge ruled that the owners of Girls Do Porn were guilty of coercing 22 women into having sex on camera, Reddit still hosted communities that doxed the real names of women in the videos and reposted non-consensual imagery from Girls Do Porn.”

“In October 2019, a week after federal investigators charged Girls Do Porn with federal counts of sex trafficking, Reddit banned the biggest Girls Do Porn subreddit. But since then, more subreddits and user accounts have surfaced to repost videos and links to content.”

“Many of the women who were lied to by Girls Do Porn are still trying to regain control of their images and their lives, years later.”

How TikTok Teens Are Ending Up on Pornhub

"TikTok is home to many NSFW trends (see: the ubiquitous WAP dance), many of which are fun and sometimes empowering. Yet some of these fads have been embraced by the younger segments of TikTok's user base, prompting concern among some members of the community, particularly considering that TikTok videos frequently end up on platforms like Pornhub and Reddit.

A number of these videos have been cross-posted to subreddits devoted to cataloguing attractive women on the platform (despite rules ostensibly preventing users from posting content featuring minors), some of which have hundreds of thousands of subscribers. Compilations of the videos featuring some underage creators have also been posted to YouTube. (YouTube did not respond to requests for comment.)"

Inside MollyBabes, the Shady Porn Site That Exploited Women on Ecstasy (The Daily Beast: May 24, 2020)

- “MollyBabes”, was a community Reddit dedicated to sharing images and videos of women having sex while high on MDMA, clearly not in a state to consent to having sex, or to having it filmed, or to having it uploaded to the Internet.
- The Reddit community was started in 2016 and became quickly very popular, but Reddit didn't shut it down until 2018 when pressure mounted to do so.
- After Reddit banned the subreddit, the runners of the subreddit created their own website, and that content was posted on Reddit's platform, despite the banning of the subreddit
