

## ***Cover Page: National Center on Sexual Exploitation's Policy on Sharing Proof***

**WARNING:** *The material in this document may contain graphic text, blurred images, and survivor quotes that may trigger the viewer.*

### **Why do we post proof publicly?**

NCOSE researchers have collected this proof as evidence of the material that is made, contained, and/or distributed by the corporations and institutions NCOSE is confronting.

Proof is shared with corporate executives, shareholders, and/or board members, as well as with policymakers, law enforcement, journalists, and the general public to **give witness to the sexual exploitation and abuse that is often rampant, yet sometimes hidden, on these platforms.**

### **Why do you blur out images, including faces, if they're publicly available?**

While we believe it is important to provide ample evidence of wrong-doing to support our claims and inspire change, **we also strongly believe that no one – neither adult, nor child – should be exposed to the type of material our researchers collect:** either for their own well-being, or out of respect for those being exploited. It is for this reason we pixelate/blur/block not only nudity or sexually graphic content, but also the faces of those being exploited.

We also want to limit access to this material (unfortunately, a luxury not afforded to children and adults using many of the platforms and products made by these companies). Therefore, we add several layers before someone can access the proof, and also don't include all the proof that we have obtained. If someone feels they need to see more evidence to understand the extent of the problem or the type of exploitation that is happening, they may request it of NCOSE by writing to [public@ncose.com](mailto:public@ncose.com).

### **Did you receive people's permission to post?**

Any personal testimony shared to NCOSE directly is posted only with the affected parties approval.

For material that is publicly available, we do not seek permission to post. However, we redact names and usernames of survivors from articles, social media, etc. even when publicly available. To read more about our commitment to ethical engagement with survivors, please go [here](#). We do not redact names or usernames of exploiters who have posted publicly.

*Disclaimer: While we do collect information on those who request access to more proof, that information will only be used for our own, internal analysis. It will not be distributed, shared, or posted publicly or with outside parties.*

## **Evidence of Exploitation on Kik**

*Note from researchers re: Kik. We spend a lot of time on multiple social media sites – usually posing as young teens. Kik is one of the worse platforms, with the most aggressive predatory behavior we have encountered. Our researchers were approached by adult men within minutes of joining the platform – and then subsequently throughout our research. Despite making it clear we “were” minors, predators persisted in engaging us in highly sexualized ways. Child sex abuse sharing is rampant and easily found. By law, we cannot seek out CSAM. Yet we came across it multiple times in public chats. We believe this platform needs to be shut down.*

*We also highly recommend viewing this video by a social media watchdog who very clearly outlines the multitude of crimes on Kik. Note, he uses strong language, but does blur image: The Horrors of Kik Messenger: <https://www.youtube.com/watch?v=9sPaJxRmIPc>*

## **Child Sexual Abuse and Grooming On and Through Kik**

According to a Thorn report published in early 2023, **26% of surveyed children ages 9 – 17 who use Kik have had a sexual encounter on the platform.**<sup>1</sup> Even more concerning, **Kik tied with Instagram and Tumblr as the platform where minors reported the second highest rates of online sexual interactions with people they thought were adults.** On all three of these platforms, 11% of minor users reported having an online sexual interaction with a perceived adult. The only platform with a higher rate than this was Omegle, at 22%.

The Canadian Centre for Child Protection data shows that [one in three luring attempts reported to their cyber tipline happened on Kik](#), Instagram, or Snapchat (34%).

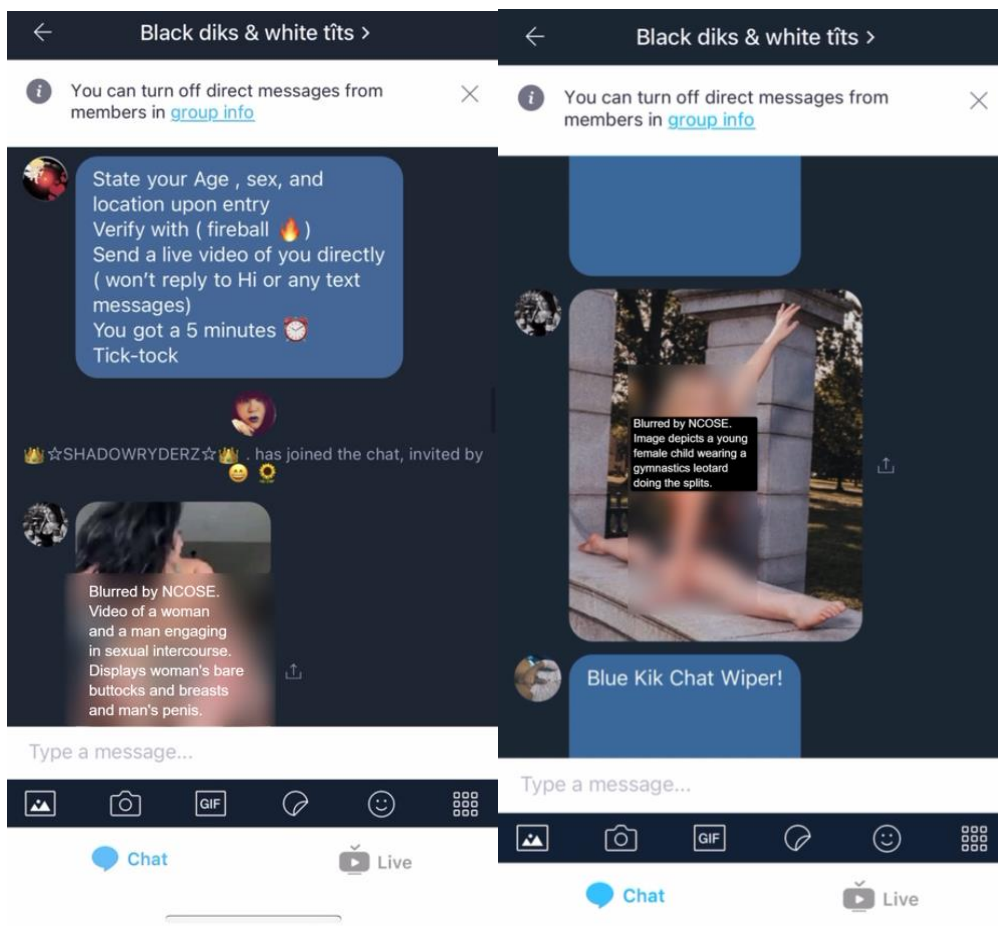

A comprehensive report [analyzing U.S. federal criminal cases](#) involving CSAM, child sexual exploitation, and grooming on social media apps found that between 2014 and 2020, more than 2,000 minors were victimized on Kik alone. And already in the first three months of 2023, about

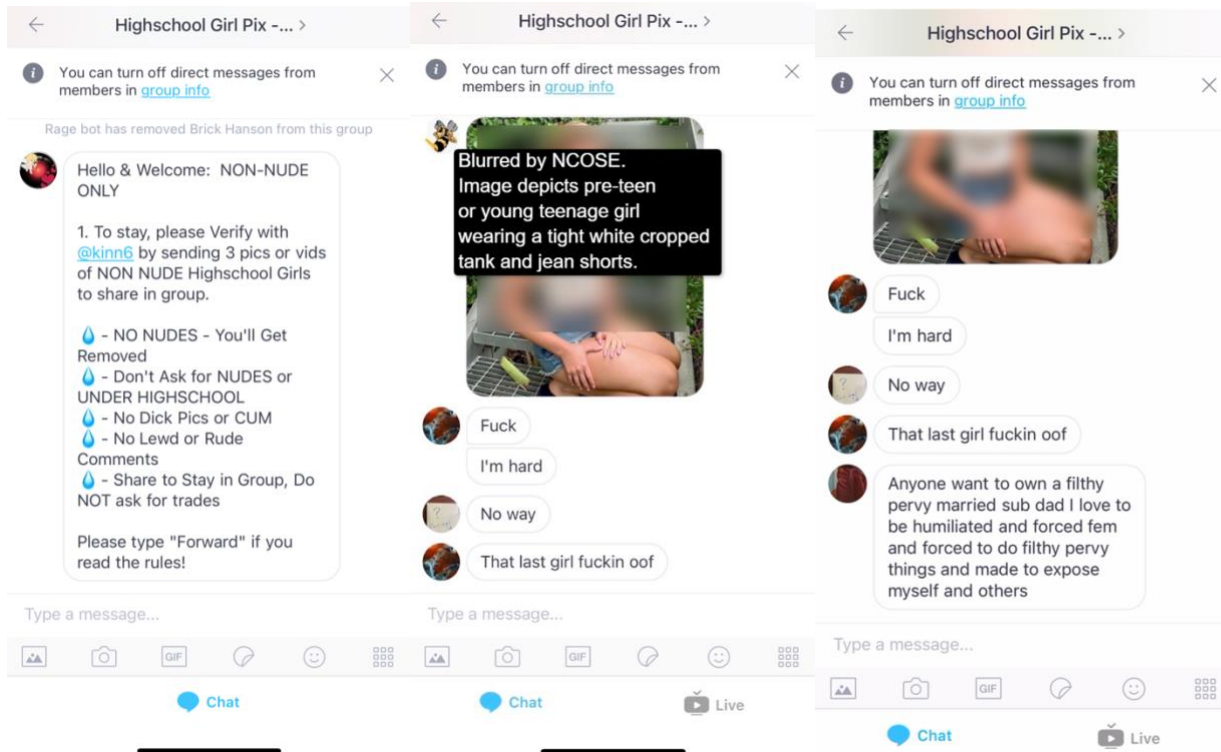

a dozen instances of child exploitation arrests and charges in the U.S. on Kik have already been reported by the press.

Kik's design features exacerbate the dangers by allowing and encouraging users to connect with strangers. The app has a **"Meet New People"** feature, which pairs *any* user, including minors, with a complete stranger with whom to start conversations. Users of any age can join public chats, resulting in increased interactions between adults and minors. Groups are not age-gated. Even when the chat titles say "18+," *users of any age* can place minors into "age-restricted group chats" **without the minor's knowledge or consent**.

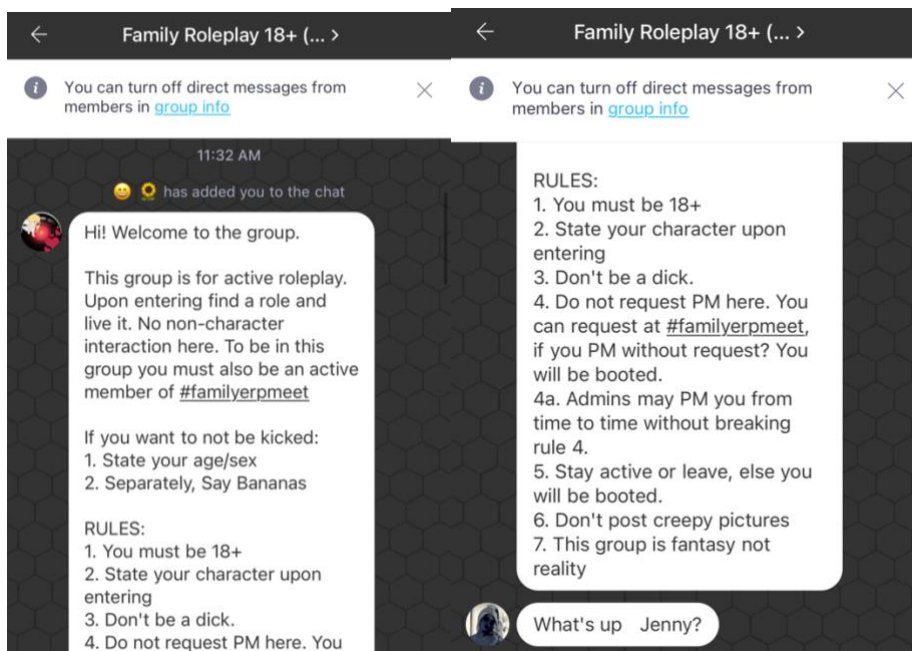

An anonymous user added "Jenny," our fake profile for a seventeen-year-old girl, to multiple group chats without her knowledge or consent. With each addition she was inundated with private messages from older men either saying things like **"let me see you baby girl,"** instructing her how to send nudes without her parents finding out or sending her CSAM and sexualized images of minors.

"Jenny" was also added to multiple group chat requiring users to send pictures or videos of themselves or teenage girls under a time limit to remain in the group. Although she was underage, the group chats she was placed into were restricted for "18+." Images of CSAM were sent and traded within these group chats (which we reported to NCMEC).

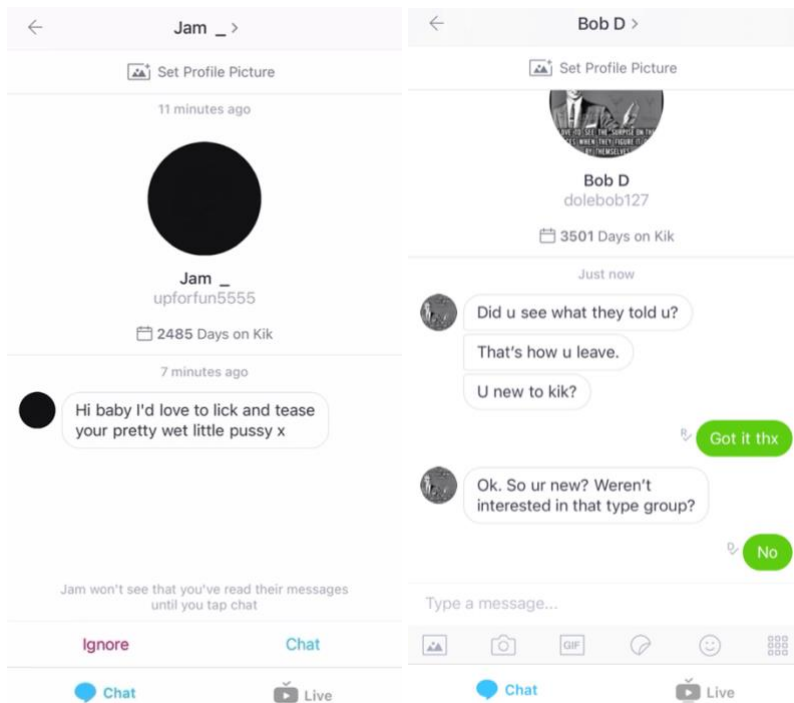

One group to which she was added was a “family role playing” group chat where members connected to play “stepdaughter” and “stepdad.” This involved sending CSAM to other group members.

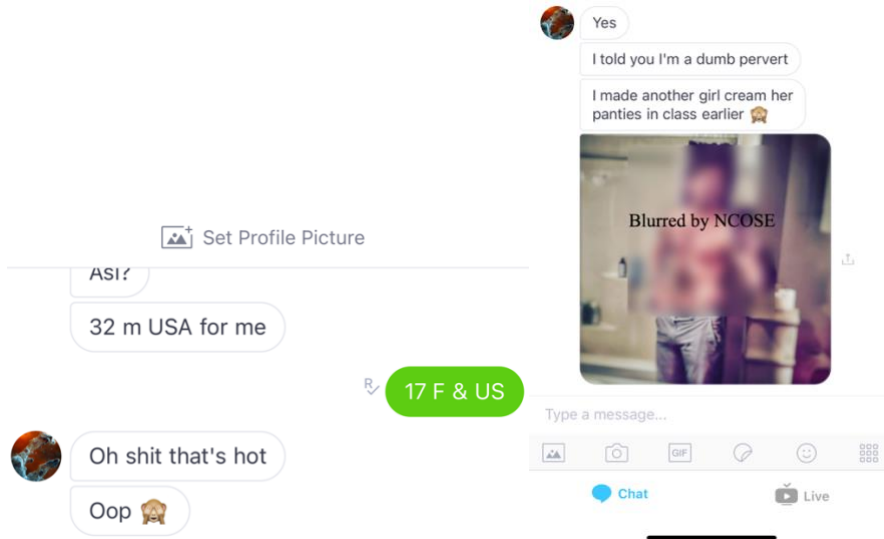

In the Family Role Play group chat, one user sent CSAM depicting a completely nude teenage girl. When “Jenny” asked the user who the teenage girl was, they replied “Step-Daughter.” The image and the group chat were reported to NCMEC.

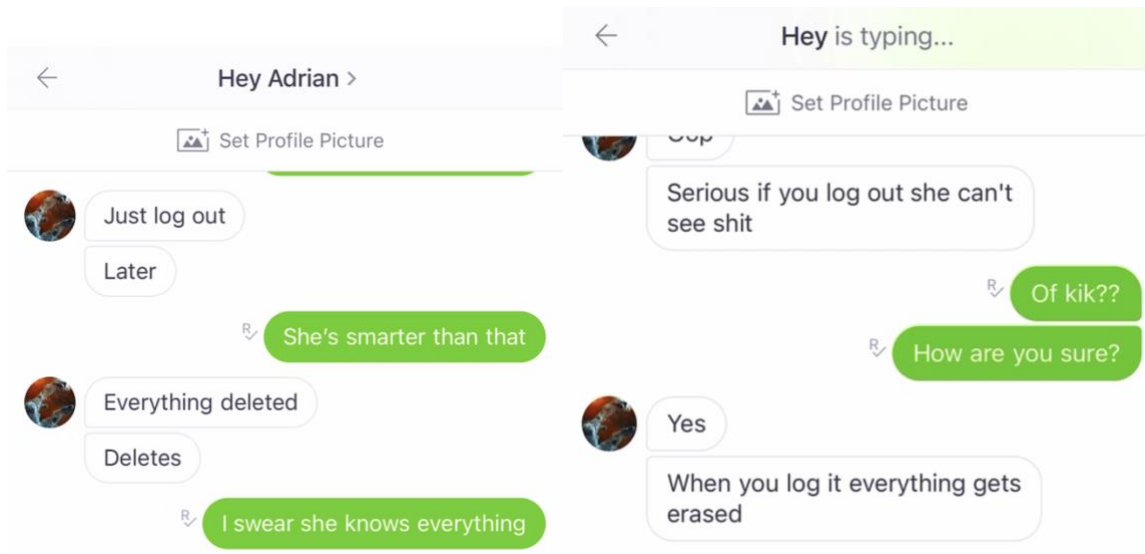

Upon asking to leave the chat, she was harassed and sexualized by group members looking for a “daughter” to join their “family.”

**There was not one instance in which predatory behavior stopped after Jenny had revealed her age; rather, the behavior escalated.** Men would often make obscene comments upon learning she was underage: for example, “Oh shit that’s hot...Oop 🤔,” and “I told you I’m a dumb pervert. I made another girl cream her panties in class earlier 🤔,” coupled with a shirtless mirror picture of the predator and a video of him smoking marijuana.

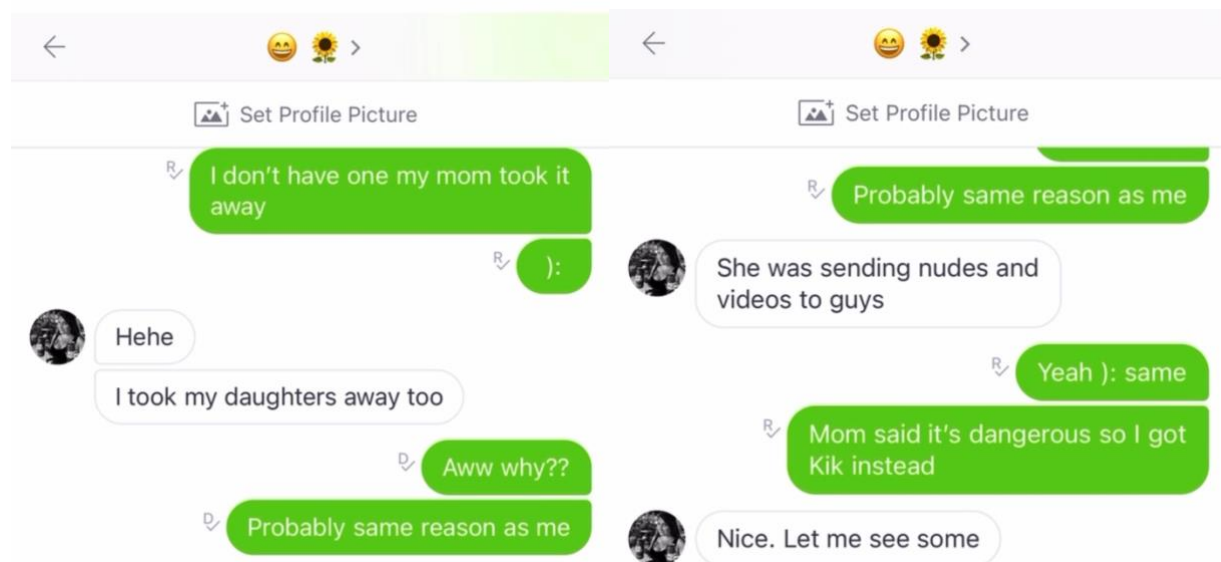

One man revealed his preference for younger girls by asking Jenny if she had any younger siblings. She was inundated with harassing messages despite her age, such as, “Hi baby I’d love to lick and tease your pretty wet little p\*ssy.” In a separate instance, upon refusing multiple requests, a 36-year-old man sent her step-by-step instructions on how to delete any images she would send him so her mom wouldn’t find out, taking advantage of Kik’s lackluster moderation and exploitative encryption.

Another user privately messaged Jenny sending her multiple sexualized images of minors and asked to see Jenny's nude images she had taken on Snapchat.

Tragically, Jenny's experiences are not unique, and the evidence shows that countless real children have been groomed and abused on and through Kik.

Here are a few publicly available stories from children who were groomed on Kik:

### I think I was groomed as a child and it still really affects me

Advice requested

Hi everyone, this is hard to talk about but I really didn't know where else to turn to ask/talk about this. Long post warning. TW for sexual abuse/harassment of a child, grooming, talk of self harm, depression, suicide ext

For context I'm a 20 year old woman now, and this all happened when I was 14-17. I was a very depressed and lonely kid. I've been in and out of therapy since I was 12, and attempted suicide many times. I was also incredibly socially anxious to the point of being mute in most situations, and I was later diagnosed as being on the autism spectrum. I was kinda picked on in school and just overall wasn't having a great time. I also had a very negative opinion on my body image, as many teen girls do unfortunately. I thought I was disgusting and ugly and fat and it was so bad I could barely leave the house at times, as I thought people would think I was so ugly. I never thought anyone would love me or find me attractive, I never thought I'd ever get a girlfriend (I'm also a lesbian and have known this since I was like 11).

Anyway, given all that context, somehow around the age of 14 I ended up on Omegle and kik and eventually other sex chat websites, where I would talk to mostly adult men but occasionally women too (or at least they told me they were women). I was so lonely and I kind of realised the only way I could get any validation or any of these people to like me was to send them nudes and videos. They would ask me to do things and I would do it, and record myself to send to them. I wasn't getting any sexual gratification from this since I'm gay and most of them were men, but I guess I was getting emotional validation. They called me beautiful and sexy and hot and it felt good to be wanted and to be seen as something other than a disgusting monster. Sometimes I would refuse to do things and they would get angry and violent, and threaten to find me and hurt me. Or sometimes there were men that were just into that, and they would say they would find and hurt me whether I liked it or not.

Usually I would only chat with them for a night but this one guy I made friends with I guess. We spoke a lot on Kik and I told him that all this sexual stuff I was doing I didn't even like I just did it so people would keep talking to me. And he told me he didn't care that I didn't like it and I kept sending him nudes anyway.

Now I'm in therapy and my therapist says this was all me being groomed. It's still hard to see that it wasn't my fault, as nothing physically was done to me or I wasn't forced to do anything. I kept willingly coming back to those sites and sending pics, but my therapist says I was groomed. I don't even know if I can really count what I went through as sexual assault or harassment or what. If I'm even a 'survivor'. What happened to me is nothing in comparison to what others have been through, but it still really impacts me even though it still feels like it was all my fault.

Currently I'm in my first ever relationship, and it's great. I never thought I'd find someone who loves me and my girlfriend is incredible and so supportive. But we've been together for over a year now, and we've never been intimate. The thought of actually having sex terrifies me beyond belief. My partner is incredibly patient with me but I know she's getting a bit frustrated. She's asked me if I'm asexual and I don't think I am, I'm still sexually attracted to people and watch porn ext. it's just the thought of myself actually having sex makes me want to vomit.

The reason I'm in therapy is because I'm not able to be intimate with my partner and she thought maybe it would help but it hasn't. I'm scared she'll leave because I'm taking too long to be ready or maybe I'll never be ready. I also think about maybe I should break up with her because she's stuck with me and she could be with someone who's actually able to give her what she wants.

It's just awful, I feel so broken and dirty and ruined. If I can't give my girlfriend what she wants am I even worth it? And even then will anyone want me if I can't have sex? What am I good for if I can't give people that?

If anyone has a similar experience, or any advice or just support it would be really appreciated. Thank you for reading.

### Getting groomed on Kik made me seek it out more

Venting post but I've been on the app since I was 11. Made it cuz friends were on there. I joined loads of public groups and met men who ended up grooming me. Asking me to do stuff in PMs with them, all in text as I knew not to do anything else. But I still am very hooked onto this form of stuff ever since.

### Am I a victim? Or did I ask for it?

**Need Advice**

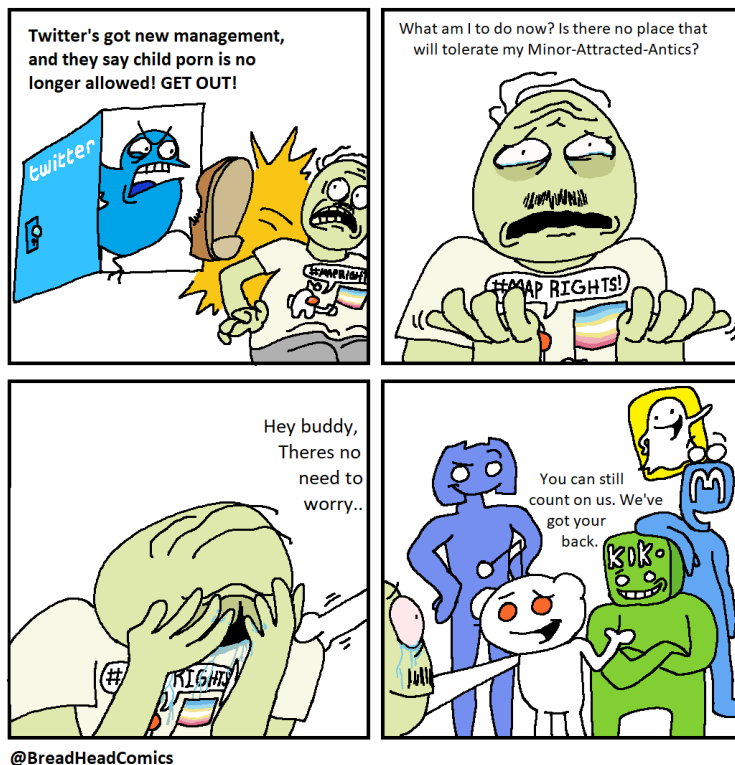

I recently have been thinking a lot about my past, and I have had a few questions. I used to be a lonely kid, I was born into a messy divorce and I feel it turned me into a very angry kid. I used to just get up in class and kick kids etc. This caused me to be a pretty big loner. Nobody really wanted to be friends with me because I scared them. I don't remember exactly how or why I first started, but around the age of 11 or 12 I started posting my number and kik username on these chat forums (topix was the big one for me). I remember being messaged by hundreds of these guys who wanted to creep on a child. I ended up talking to these guys because they were the only person who would want to talk to me outside of school. Eventually I started catfishing for a bit, I lied about my age, gender, etc. etc. but I do remember the oldest I said I was, was 16 (this happened from ages 11-15). I would get thousands of these creeps sending me videos, pictures, asking me to send them in return, and some I did, because it gave me somebody to talk to. I felt popular. Eventually I started getting in a lot more serious trouble, eventually leading me to be expelled from school. This pushed me even further into this cycle. Around the age of 15, i joined my school marching band and gained friends, real ones, and slowly faded out of my previous habits. I forgot about all of this for a while, but recently I have been thinking about all of this, and I want to put a name to it. Was it grooming? Did I bring it upon myself? What do I do with these thousands of numbers i have in old phones? I feel like I just want an outside answer/opinion

### Survivor 4<sup>v</sup>

Kik is one of the most notorious apps for predatory adults to target young children, so much so that teenagers share stories and make jokes online about the trauma they faced on Kik. Sexual grooming on Kik is so widely known, it has become a meme.

# LITTLE MISS GROOMED ON KIK

## Child Sex Abuse Material (CSAM) Posting and Trading on Kik

Kik is also commonly used for the trading of child sexual abuse material (CSAM, the more apt term for “child pornography”). Kik repeatedly and frequently makes headlines for this crime. To highlight just a few of the most recent examples:

- Oswego County man allegedly [promoted the sexual performance of a child](#) on Kik app, (April 3, 2023).
- [A mayor used a Kik account](#) to upload and distribute dozens of CSAM images (March 2023)
- A [38-year-old Gainesville man](#) was arrested 12 counts of the promotion of obscene material, after law enforcement was notified that he had uploaded “videos [that] contained prepubescent girls performing sexual acts, and in some instances showed adult men raping them.” This man had been using Kik to share CSAM and sexually exploit prepubescent girls for over two years. [Kik has been unable to ensure](#) predators cannot circumvent their account’s removal or commit ban evasions, allowing predatory behavior to continue unbridled. (March 2023)
- Court docs: Man [seen near home of trafficked teen](#) Kokomo Tribune (March 2023)
- Lisle university student charged with using Kik to [disseminate child pornography](#), Daily Herald (March 2023)
- 4 Southern California men face [child sexual exploitation charges](#), Los Angeles Daily News (March 2023)
- Ex-Daytona Beach Police officer gets 25 years for [possessing child sexual abuse material](#), The Daytona Beach News-Journal (March 2023)

- Man with ties to Ocala youth athletic programs arrested for [distributing child porn](#), Ocala-News (March 2023)
- Lebanon Sex Offender Charged with [Sexual Exploitation of a Child](#) Using Hidden Cameras, Distribution and Possession of Child Sexual Abuse Material, Department of Justice (DOJ) (March 2023)
- Metairie woman accused of [livestreaming child sex abuse](#) said she needed money to pay rent, , NOLA (March 2023)
- Mayor charged for over [50 counts involving child pornography](#), Local 12 (March 2023)
- Indiana man was sentenced to eight years for distributing CSAM on Kik: article titled [“Chat service Kik at center of yet another](#) Evansville child pornography case” [emphasis on “yet another” by NCOSE] (February 2023)
- Missouri man pleaded guilty to CSAM charges, admitting [he used several Kik accounts to view and distribute CSAM for at least two years](#). He also stated that he was a member of at least 50 groups on Kik that were dedicated to trading CSAM. (January 2023)
- Admin of a [Kik group dedicated to trading CSAM](#) was sentenced to 30 years in prison. (January 2023)
- Former [ABC news producer arrested](#) for receiving and distributing CSAM on Kik. (January 2023)
- Quincy Man Sentenced to Six Years in Prison for [Child Pornography Offense](#), Department of Justice (DOJ) (January 2023)

Kik is so well known among pedophiles that entire forums have been created specifically for Kik CSAM trading. A forum called “Kik Sexting” is dedicated to posting requests for various illicit content such as CSAM, bestiality, incest, and other non-consensual material. Kik is not an app designed for teenagers, but for adults to access teenagers.

Using the well-known CSAM search term “mega,” NCOSE researchers identified more than 90 different offers and requests to buy, sell, or trade CSAM on Kik since December 2022.

Child sexual abuse, sexual grooming, and sexual exploitation are rampant on Kik. Users are able to promote their ability to request, buy, sell, and trade CSAM because of Kik's lack of robust moderation practices and age-verification tools. Kik fosters an environment that encourages predatory adults to exploit and abuse children.

Hello there, I am looking for very young girls (or femboys) to use and control. (1.3-1.7). This is very taboo so I expect very little limits.

For Femboys you need to be smooth and slim, meaning no hair on your body (other than head) and have a slim figure. You are also to be submissive and ready.

A few things you need to be into are Bestiality, Pain, Exhibitionism, and be ok with sending any video or photo I ask.

when you message me, have the first message be "Hello sir, I'm here to be abused." And when I receive the message we will start right away. Can't wait to get to "Know" you!

I have thousands of child porn videos and I'll send them to you IF you send me videos of you masturbating to the child porn. You'll basically be tributing the children as they get raped. I'm a no limits slut who loves cock and watching guys jerk off, so watching you jerk off to jail bait cunt gets me so wet. YOU MUST MOAN AND TALK -- VOLUME SHOULD BE ON. I'm looking for very perverted men who love masturbating and gooning to anything. Let's have fun 🍑

### Break This Bitch

Discussion in 'Kik Messenger Sexting' started by [redacted], Jun 10, 2022.

She thinks she's super smart coz she can speak 5 languages, she's really just a dumb little slut that needs corrupting and breaking down into what she really is. You probably have a good shot at hooking up irl if you live in England too. Even more if you have a couple grams of coke. She is really stubborn, will lie about her age, she's 21. She absolutely loves being degraded like a slut. She even slept with her ex boyfriend's sister to get revenge on him. A few things for you to use. 1. Her older sister hung herself when she was 12. 2. She has a body count of like 4 people, (I can't remember how many boys or girls, just the overall number.) 3. Her dad is abusive when he is drunk, which is quite often.

She will do anything for you and send nudes if you send her cp(child stuff)

Her Kik is [redacted]

The forum also posts descriptions of what Kik should be used for and how to ‘properly’ use Kik’s services. This involves detailed information about clearing chat history, connecting with teenagers and “Kik Girls” and “Kik Boys” and using Kik for sexting.

**Kik Girls**

**Kik Messenger App: Enjoy Endless Fun at a Crazy-fast Speed**

Have you ever heard the phrase “kik me”? If not, not to worry—you are probably part of the older generation. It’s uttered often in high school hallways and the term gained popularity through an app called kik. Kik is a messaging app for connecting people together—teens, youths, kik girls—irrespective of their first meeting point. You can make new friends effortlessly by sharing your username on Spotify or Twitter. There are also several ways of doing that.

This app has a lot of useful features which is often enjoyed in other messaging app. With some of these features, text messages can be sent readily, with the inclusion of photos and videos. You can download kik without paying a dime, onto your device. You can also communicate in a manner you want, which is enabled by its cross-platform ability. Users can have great fun while using it aside from its communication and technical features.

Whether you simply want to meet kik girls or just want to have fun using this messaging app, you will completely immerse yourself. We all know the regular way to add fun and pizzazz to our conversations with emoticons, kik takes it even further. From browsing and also sharing of YouTube videos, to sharing of favorite kik pics, users have their hands full when it comes to sharing of content that expresses their mood exactly. Users not only create and share memes that they find amusing, they can also put their artistic skills with risqué sketches. Aside from that, kik also has an image search feature, giving users almost instant access to several images; you can even browse through and share with friends.

This app offers you that opportunity to connect with friends and new folks for the benefit of having a great conversation—and perhaps, extra more. Guys can connect with kik girls and trade pictures. You can meet new romantic partners; it’s either you chat through the app or hook up in person. Another thing this app does is capturing videos or snapping selfies, and you can also do an exchange with someone you have an interest in. Kik not only offer the chance to have great fun everywhere you go, it is an avenue to show forth your best to another kik user. Whether you are seeking romance or something on the casual level, the app presents to you a good and reliable way to exchange ideas and thoughts.

People use their username names to message each other rather than phone numbers, and creating and deleting of username is allowed as many times as possible. Though it is a customizable app that does a lot of things than just texting, it also offers a great deal of privacy.

Meeting a new folk or kik girls is not that hard, but you must first register if you are not on the platform. To begin the registration process, a user must first of all enter a first and last name, date of birth—user must be at least 13 years old— and e-mail address, and can then select a username. It is important to note that username and birth dates are not verified, offering users the opportunity to misrepresent their identity and age if they choose to. Registration does not require you enter a phone number—though there is an option to enter one. Other messaging apps require that you provide one.

According to several reports, kik’s anonymity features stands out when compared with your most widely used apps. Kik’s guide as regards law enforcement states that the company cannot locate user accounts using e-mail address, first and last name and/or date of birth; you will have to use the exact username to locate a particular account. Furthermore, the guide revealed that the company has no access whatsoever to “historical user data” such as text conversation, videos, and photographs. They are immediately deleted shortly after being sent. A limited amount of data emanating from a particular account, which includes birth dates, first and last name, e-mail address, user location information, etc., can be preserved for a period of 90-days consequent upon receipt of a valid order from law enforcement.

The Founder and also CEO, Ted Livingston is not particularly concerned with the fact that the platform is being used for dealing drugs and also favorite for sexters; monetizing the application is the paramount thing on his mind and turning it into a one-stop destination for on-demand meal ordering and for having great chats with brands. This app from Canada is poised to fulfill its mission—become the “wechat of the west”

As teens grow older in this mobile-first world, it is predicted that they may want to explore more other than just texting with friends and family—buying things in a fast and streamlined way will become the order of the day. As users bring together, the distribution of various goods and services, and kik as the communication platform, it is not surprising that the company is working so hard on turning itself into a legitimate marketplace.

This app can be akin to a mobile phone in more ways than one; you talk to a bunch of people you want to and block those you don’t like. But if in any case, you are posting it publicly—I mean your messages—you are sure to get quite a number of people messaging you, and some you may not like so you might want to take a little caution if you are the kind who really values their space. People have learned this over the course of time and they don’t post publicly.

The survival of kik is strongly dependent on differentiation, which means the justification of keeping kik on your phone along with a handful of messaging apps like Google Hangouts, Facebook Messenger and iMessage for iOS users. But the fact remains that this app offers so much fun while doing what you love, and that might just be its staying power even in a highly competitive market.

Meet your dream kik girls, take it extra further and enjoy this app to the fullest. So, “kik me” and let’s get rolling, this is what messaging is all about in this day and age!

A large list of people actively using Kik Messenger. Find people to chat with now, free!

 **Kik Sexting** Latest: I Am Also Alone My Kik Lets Do Se...  
Enillia567, Apr 8, 2023 at 6:16 PM

If you're not on Kik, then you're missing out. This trendy new messaging system has grown in popularity among teens and young adults. Anyone with a smartphone can download the program, which allows users to not only message each other but also share pictures and videos with friends much easier than with a phone's text messaging system. Users can also send "Kik Cards" for their friends' birthdays and other special events, which has attributed to the program's popularity.

**So, what is Kik Sexting?**

Sexting is a term used to describe a racy conversation between people through text messages that are sexual in nature, and often include sharing sexy photos and videos. Like sexting via text message, Kik sexting is the same, but using the Kik app will open up your possibilities in regard to whom you're talking to. You no longer need to know someone personally in order to have an intimate conversation with them. Kik allows users to talk to anyone as long as you know their username and protect each user's privacy by not revealing any personal information.

**How do I find other Kik users?**

Likely you've heard the expression, or have gotten an invitation from a friend, "Hey, do you want to Kik?" This is usually followed by a username. People add it to their Instagram profiles, ask this in chat rooms, and even place Craigslist ads inviting others to converse with them. Kik will even recommend other users who you share interests with and make it easy to start a conversation. Additionally, there are many websites dedicated to connecting people through Kik, such as [www.kiksexting.com](http://www.kiksexting.com). Here you can find the Kik usernames of singles looking to chat, sext, and even trade nude photos.

**What are some benefits of using Kik?**

Using Kik not only allows you to chat with new and exciting people, but you can do it anonymously. There's no link to who you are, aside from your chosen username and any information you choose share with others, giving you the freedom to be yourself. Unlike similar apps, Kik doesn't ask you for your phone number when signing up, ensuring your privacy.

If you find yourself constantly going over your phone's allowed data for the month, then this app will help you to save some cash. Kik requires an internet connection, but there is no limit on how many messages you can send. Many people who have phone plans that charge them per message prefer to use Kik.

If you choose to, you can link your Kik account to your other social media profiles, such as your Facebook or Instagram pages. This allows your Kik friends to view your status updates and posted photos by simply using one app. Many users feel this aspect of the app makes it easier to stay in touch with friends and family; however, this will compromise your anonymity. If remaining anonymous is important to you, then keep in mind that anyone you add on Kik will be able to view your social media pages if they're added to your profile.

Kik is free to download and simple to use, providing its users with unlimited entertainment. Why not get started today?

Here is another Sexting App with lots of kik users available to add.  
Discussions: 1,108 Messages: 1,293

The forum even provides an instruction manual on how to escalate from “sexting to sex.” Combined with the anonymity and lack of meaningful age-verification, this guide provides a step-by-step guide for predatory adults.

Five Ways to get you from Sext to Sex

So you've made the decision to engage in some dirty talk... You're not alone. More and more people are looking to their phones to get satisfied, because in the modern world we live in, nobody makes phone calls anymore. Sexts are thrilling, discrete, and can spice up your love life.

Here at KikSexting.com, we want you to feel wonderful all the time. That's why we provide a space for you to communicate with other frisky locals.

If you're new to sexting, don't worry! KikSexting is the perfect place for you to practice your dirty talk before you head out to the club or party to meet up. Here are some tips to turn you into a sexting-extraordinaire:

- 1. Tease**

Use the element of surprise to your benefit. Who doesn't like a raunchy text surprise when they're at work? Remember to start off slowly. Spelling and grammar are also very important when texting because "no! will think dis iz seax".

Start off by talking about one of their facial features which you find attractive. For example: "I can't stop thinking about your soft lips. I wish I could press them against mine." The objective of this step is to get their attention. When you've got their attention, you are ready to move on to the next step.
- 2. Build Tension**

Now that you've got their attention, it's time to turn up the heat. Keep their interest in you by still maintaining an air of mystery. The objective of this step is to get them fantasizing about the person behind the words on their phone screen.

Tell them about yourself: What are you wearing? Are you wet or hard? What are you doing to yourself? You can tell sexy stories about anything you want. Tell your sext pal what you are fantasizing about to really get your them into it.
- 3. Get Dirty**

This is where things become interesting... When your sext-pal is as heated-up as you are, start talking about what you want to do to them.

Create a sexy scenario and have them play along. This may also be what you want to lead up to if you meet in person. So don't say anything that you don't mean or don't intend doing in real life.
- 4. Send Pics**

Maybe send a sexy photo if you're comfortable with it.

Here at KikSexting.com we have a large database of users. Take advantage of our extensive list of users and show your sexting pal your best assets. You can start with a little strip tease. Or send pictures illustrating your deepest fantasies. Try to get your partner begging for more.
- 5. Respond**

The most important aspect of sexting is to respond to messages. The more you respond to them, the more they'll respond to you.

Continue to lead your sexting partner on. Carry on playing in the fantasy world you have created together. And remember, they want to have fun just as much as you do.

Now get at it!  
Happy sexting everybody!

Kik has created an ecosystem in which child sex abuse material thrives.

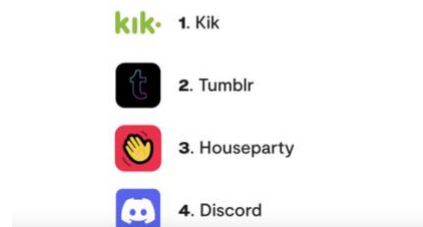

**[Exposure to Severe Sexually Explicit Content and Hardcore Pornography](#)**  
**In February 2023, top-rated social media monitoring company Bark released its 2022 Annual Report earlier this year, which analyzed 4.5 billion messages across text, email,**

Compiled by the National Center on Sexual Exploitation: [www.endsexualexploitation.org/kik](http://www.endsexualexploitation.org/kik)

YouTube, and 30+ apps and social media platforms. For the third year in a row, **Kik** was flagged as the number one platform for *severe sexual content*. Kik was also within the top five apps flagged for Depression, Body Image Concerns, Severe Bullying, and Hate Speech.

### Severe Sexual Content

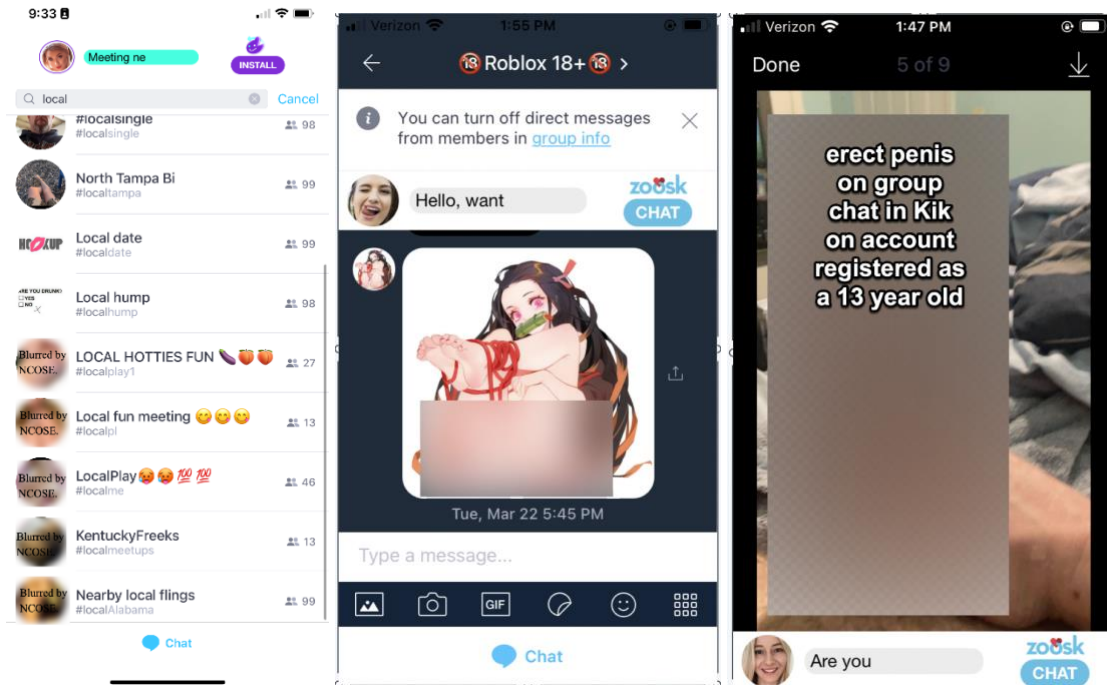

#### Top 5 Social Apps/Platforms Flagged

[Kik's policies](#) claim to ban “Material that is unlawful, obscene, defamatory, libelous, threatening, pornographic, harassing, hateful, racially or ethnically offensive, or encourages conduct that would be considered a criminal offense, give rise to civil liability, violate any law, or is otherwise inappropriate as determined in our sole discretion.” Our profile “Jenny” encountered *all* of this allegedly prohibited content within *her first day on Kik*.

Even Kik’s suggested “age-appropriate” searches lead to harmful content. Based on ‘teen interests,’ Kik’s suggested terms yield countless group chats with thumbnails of nude genitalia, sexually explicit names, and misleading descriptions such as “Memes and Chill,” “No Butt Stuff 21+,” and “MemesHub 18+.” Under the hashtag #catmemes, the chat “Playful Kitten” appears; the thumbnail is a silhouette of a nude cat woman. Innocuous search terms that appeal to children, like #Pokemon, #local, #cool, #meme, #cheerleading and #Fun, lead to chatrooms dedicated to pornography, trading sexually explicit images/nudes, and other content that violates Kik’s policies. A search for “highschool” yielded an image of a man holding his penis in between a hot dog bun and putting mustard on it. “Local” immediately surfaced nude breasts and buttocks.

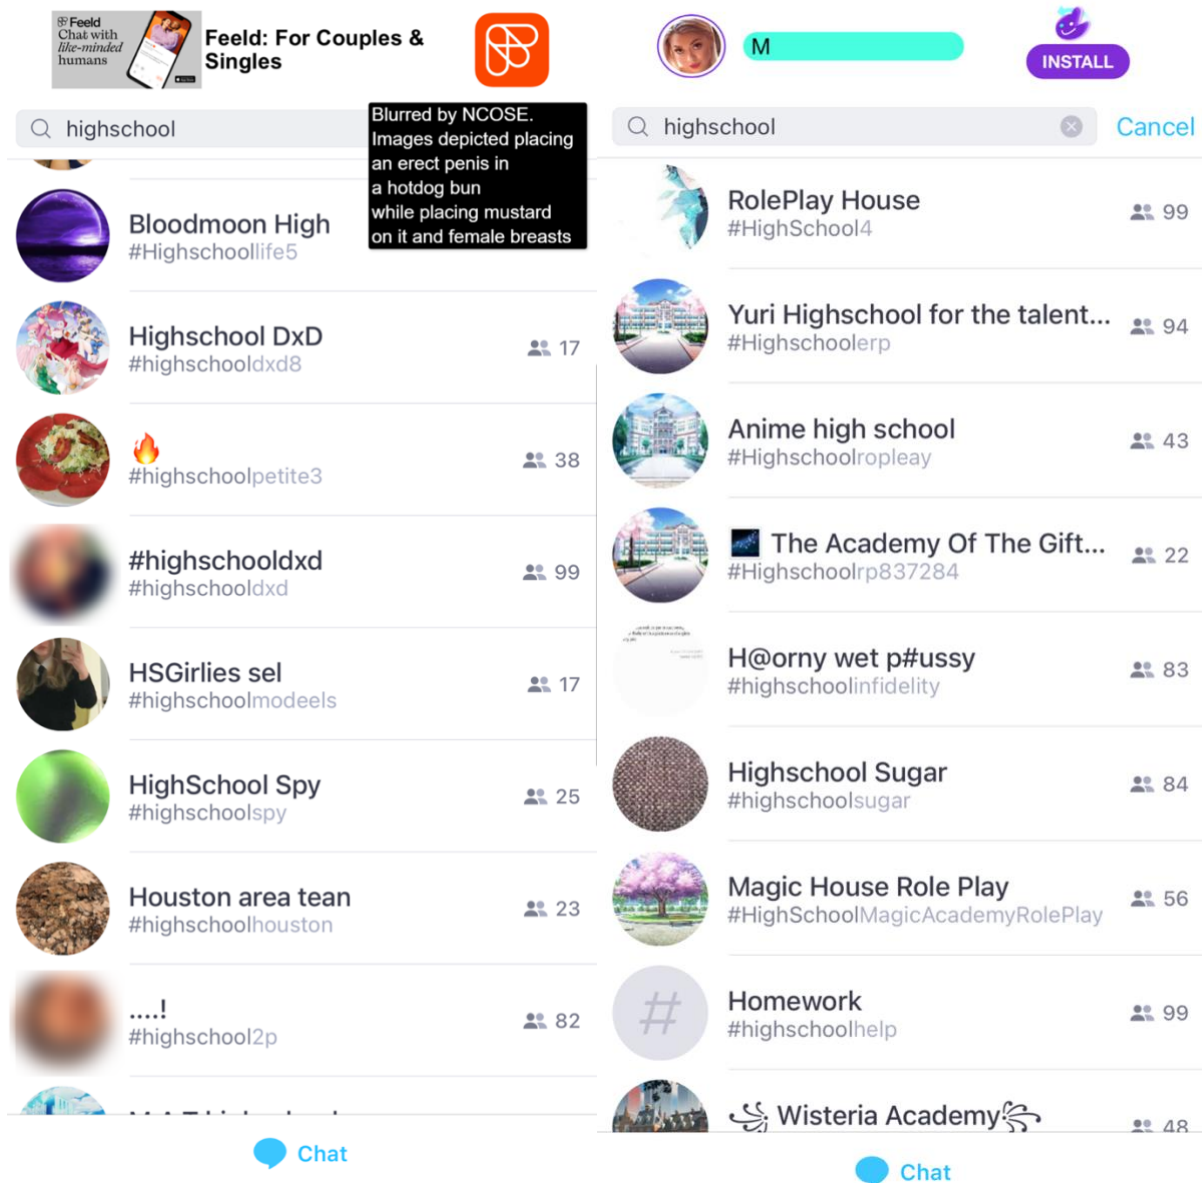

Despite sexually explicit imagery and pornography violating Kik’s policies, this content was found within almost every suggested group chat.

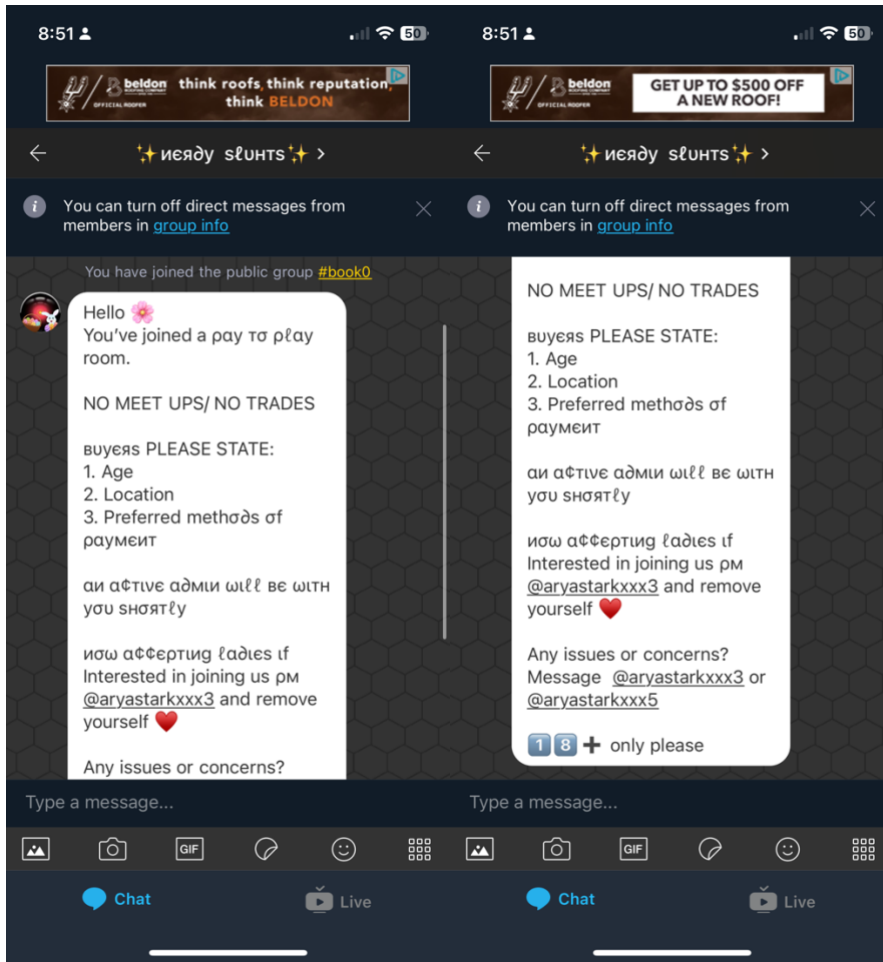

Using other seemingly innocuous terms such as #highschool and #local returned similarly explicit results.

Here's what came up for #highschool:

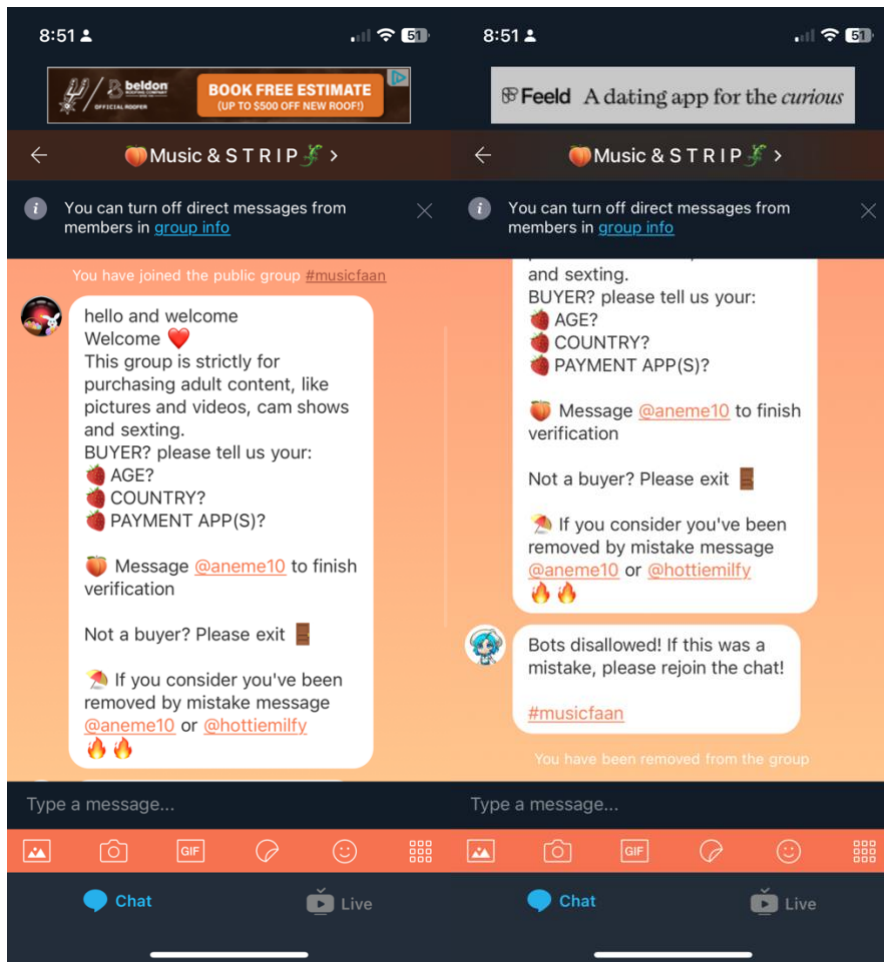

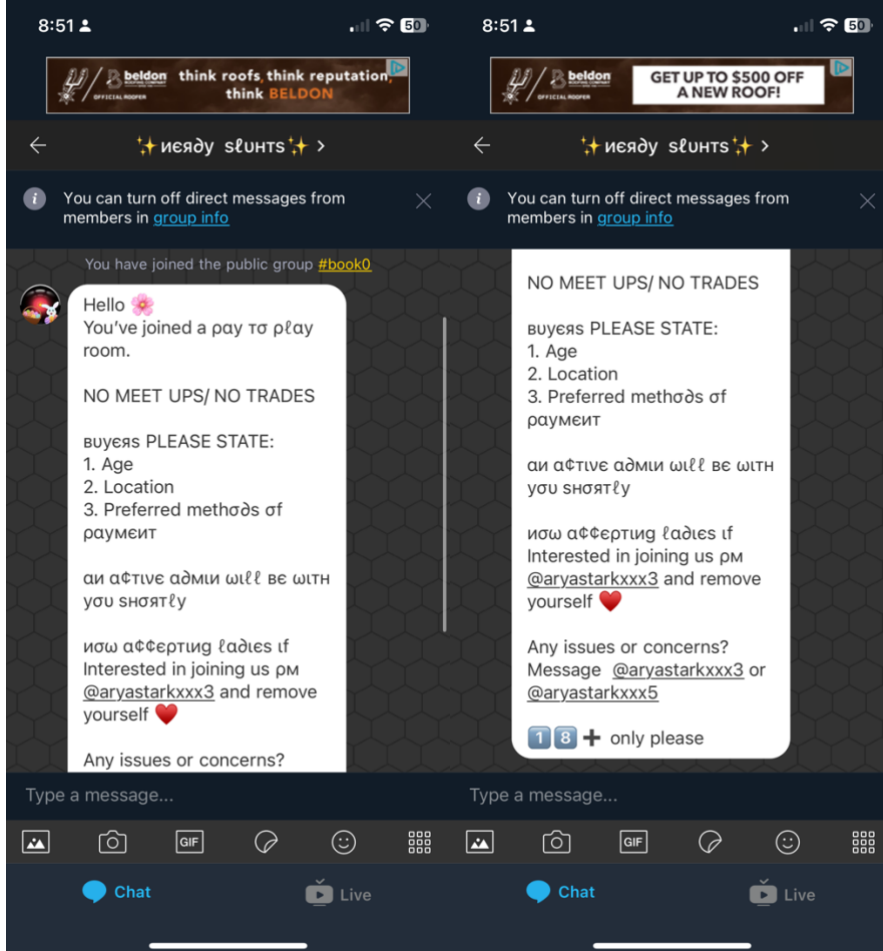

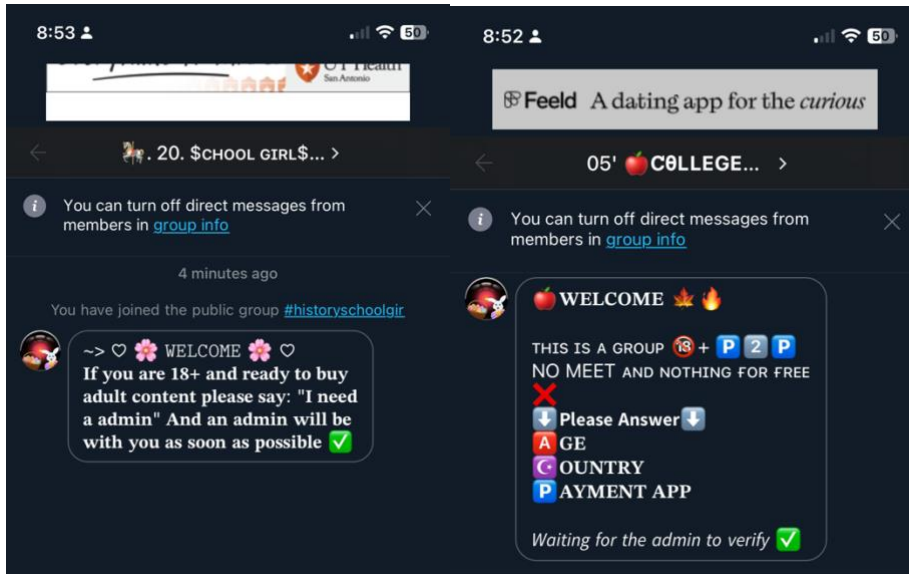

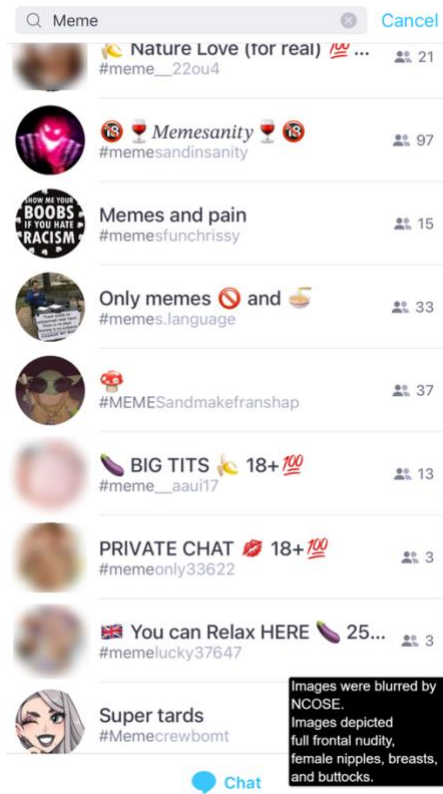

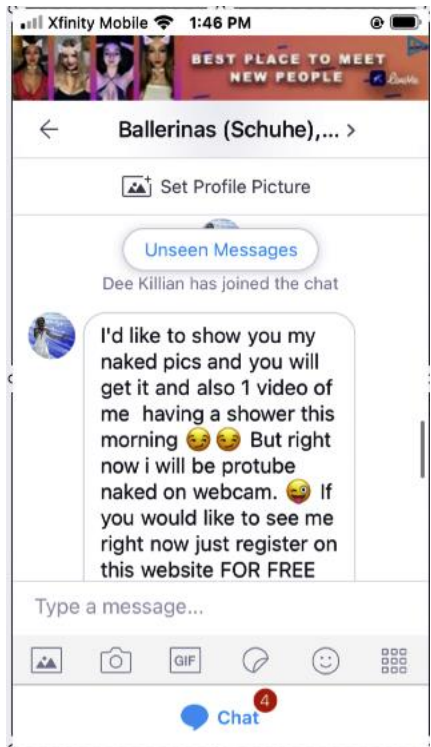

Many of the suggested group chats were chats dedicated to the buying and selling of pornography. These were accessible using the fake minor-aged account.

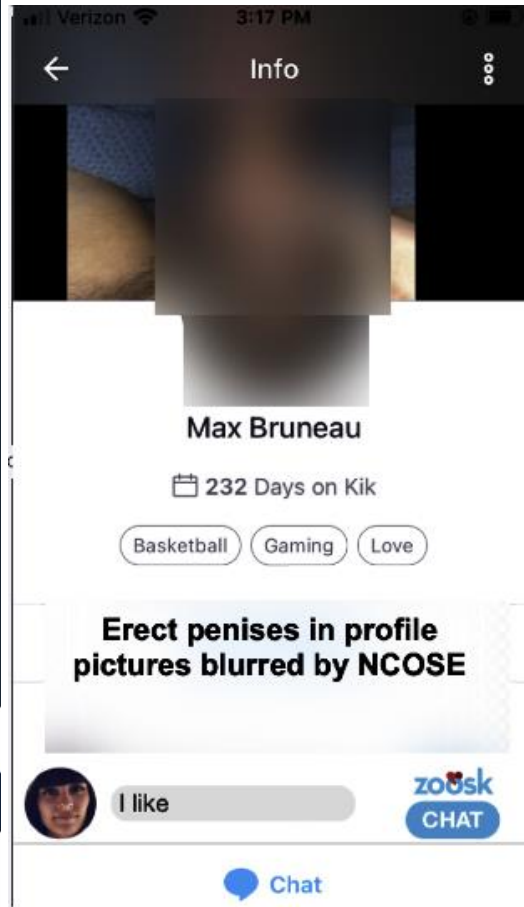

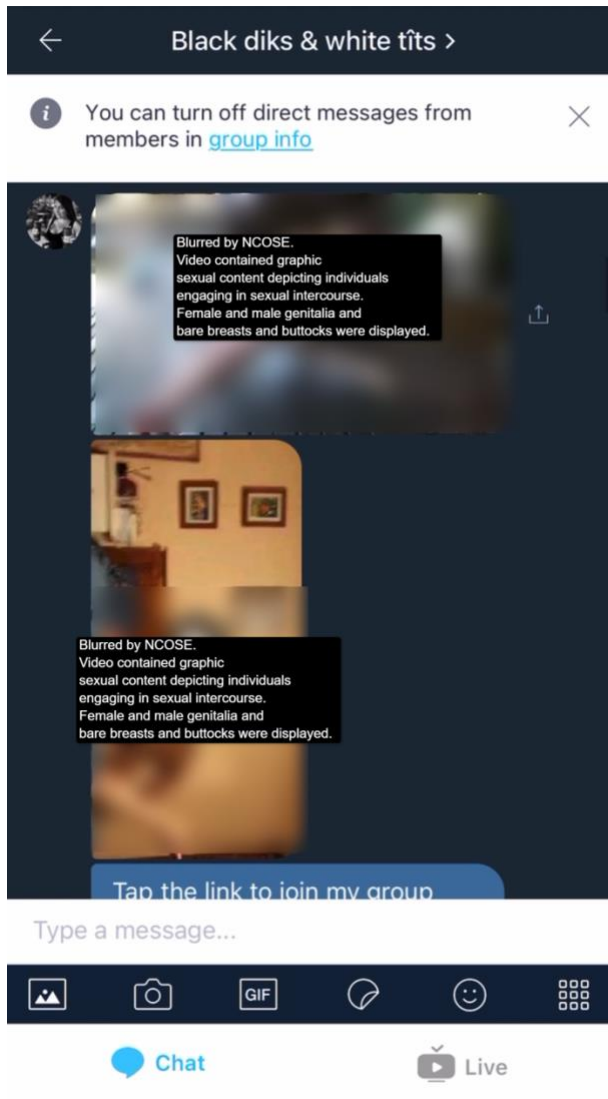

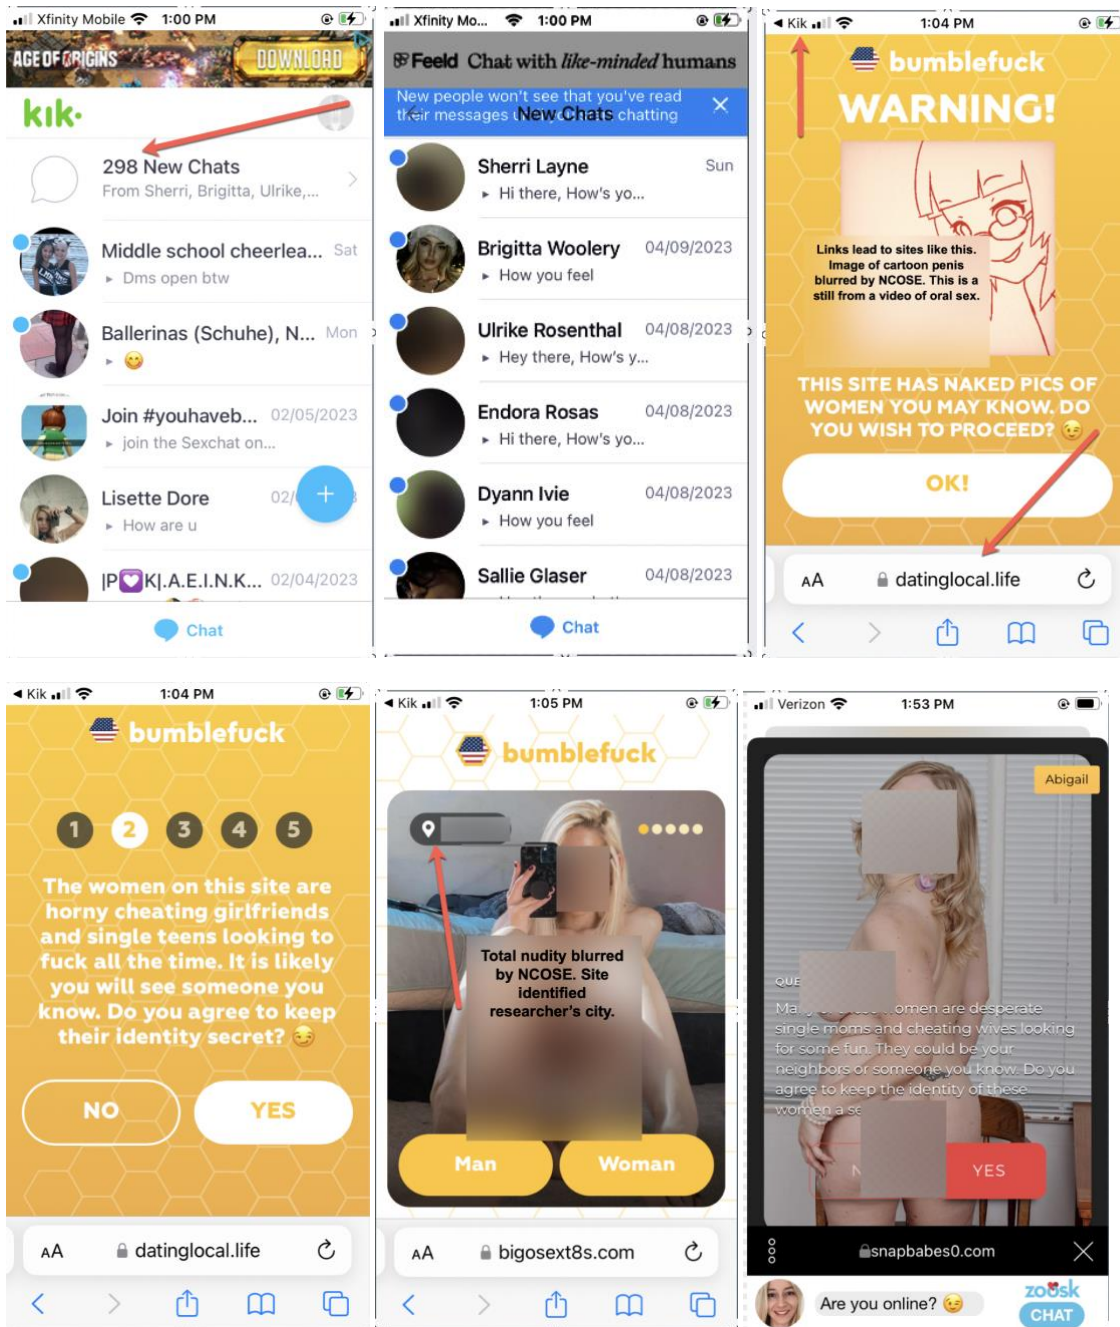

Kik has no filters to allow children to avoid seeing explicit imagery when searching innocuous tags. We can only surmise that this is intentional, as the technology to blur sexually explicit images or filter them out altogether is easily available.

### **Prostitution Advertising with Pornography**

Our researchers were also inundated with bots promoting prostitution and random sexual encounters, links leading to graphic cartoon pornography, and advertisements with images and videos of women masturbating.

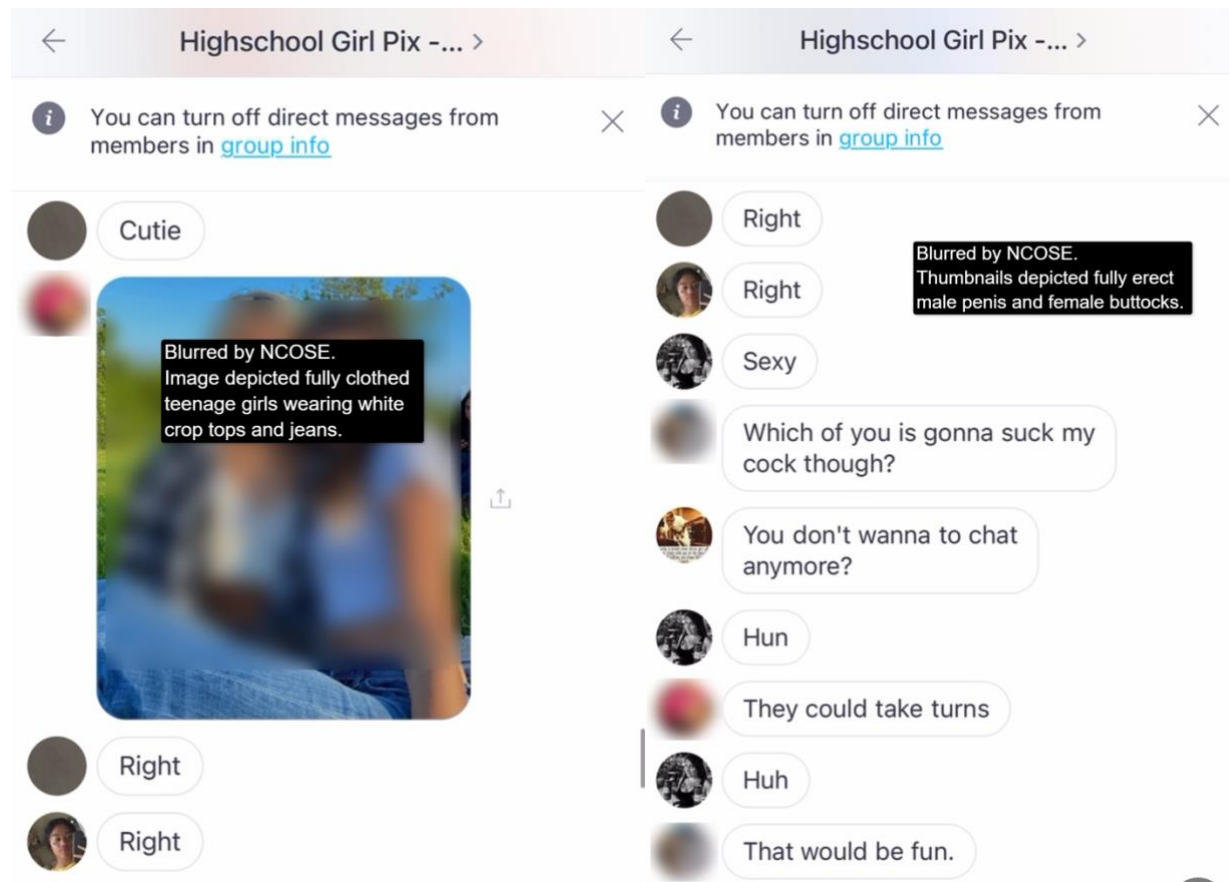

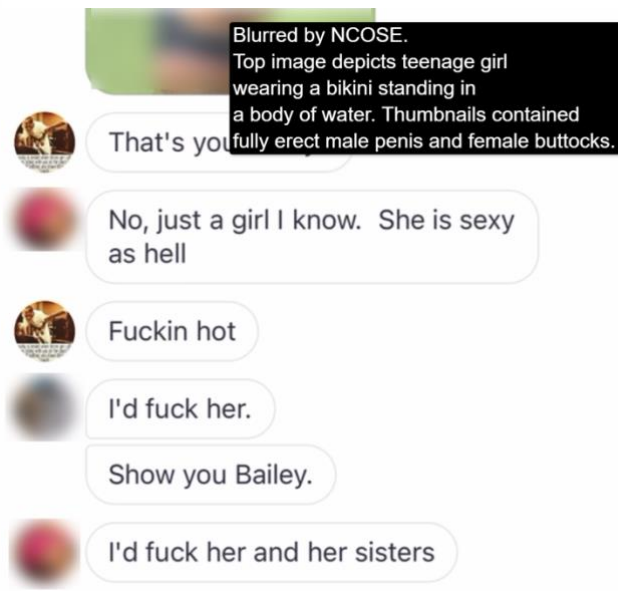

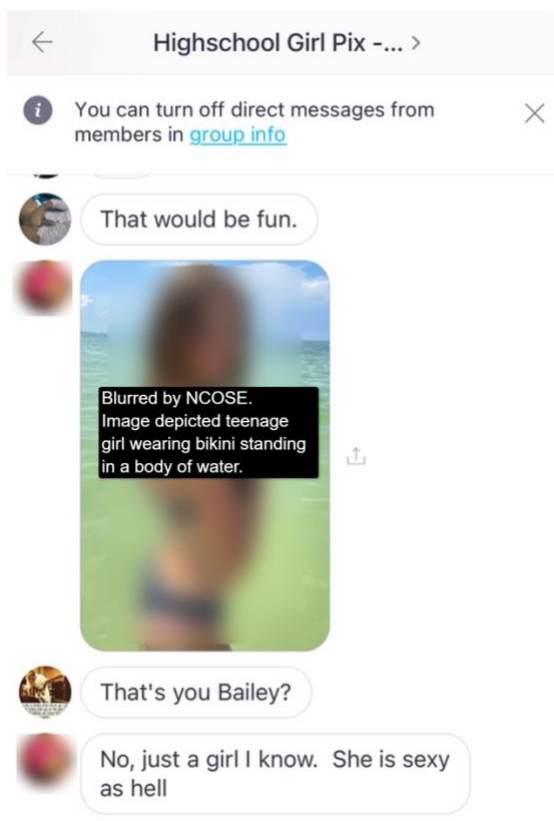

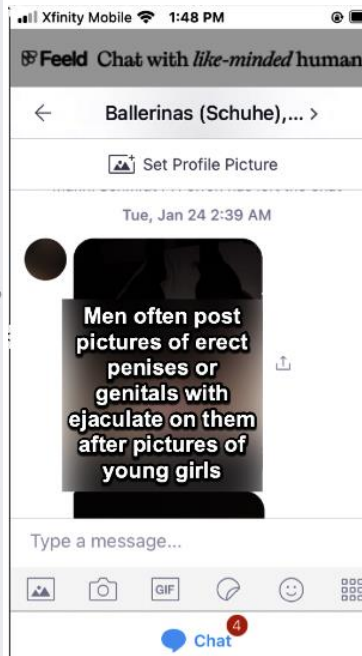

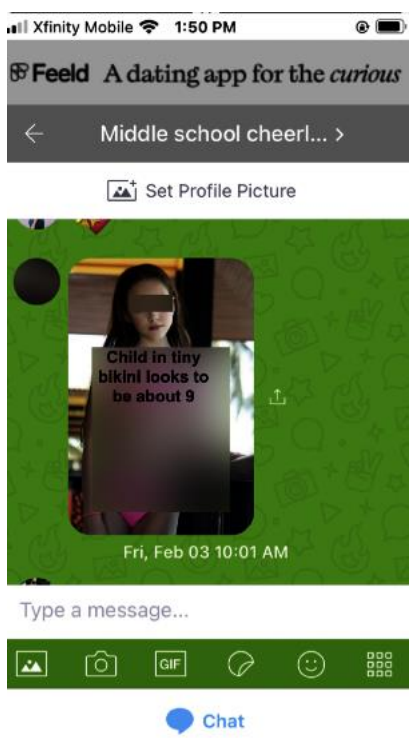

On paper, [Kik's policies](#) do not allow pornography or inappropriate content to be posted anywhere on the platform. However, these policies are not being enforced in any meaningful way. As a result, pornography and other banned content flourishes on the platform and is easily discoverable by the children that make up so much of Kik's user base. Kik is not safe for minors.

## Sexualization of Minors

Kik also facilitates the sexualization of minors on its platform. NCOSE researchers were exposed to numerous incidents in which group members would post images of minors, encouraging others to make sexualizing and disturbing comments. Pictures of erect penises or genitals with ejaculate on them would often be posted after pictures of young girls.

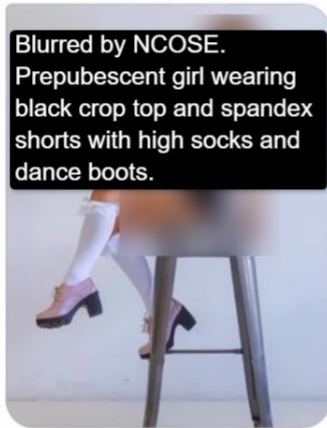

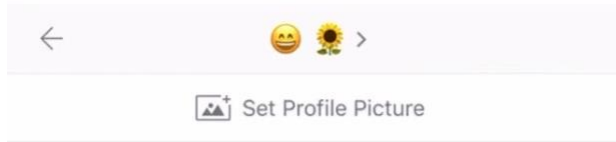

This would occur in public groups as well as in private messages. In one instance, an adult man sent NCOSE researchers unsolicited images of fully clothed prepubescent children attached with sexualizing comments.

Those are cute shoes! Is that you?

No I'd like to suck them tho

Your asl?

### Department of Justice (DOJ) Press Releases

Finding evidence of predatory behavior being facilitated on Kik is not difficult. NCOSE staff searched the Department of Justice (DOJ) website for press releases documenting arrests involving Kik. Out of the 57 results that were returned, *every* article was related to incidents(s) of CSAM, sexual exploitation, and/or sexual grooming that had happened on Kik.
